Explanations	

Our Company has signed a Group Contract with Orange SA, one of the world's leading telecommunications operators headquartered in France, under which the Odine Orion Wholesale Voice Management Solution will be implemented for Orange Wholesale, the wholesale division of the Orange Group.

The parties have agreed on the scope and commercial terms of the project. The final contract value will depend on the selection of optional items and will be reflected in the separate Purchase Agreement to be signed between Orange Wholesale and Odine.

Within the scope of the project, the works will include architectural design, system integration, data migration, testing and validation, commissioning, and operational support services, utilizing the Orion Wholesale Voice Management Platform developed by our Company.

The Odine Orion Wholesale Voice Management Solution provides core functionalities including Least Cost Routing (LCR), priority routing, origin-based routing, processing of Call Detail Records (CDRs), traffic management, and billing processes, all within a unified platform.

This agreement supports the utilization of our Company's software solutions developed for international telecommunications markets by global operators and adds another reference project to the international track record of the Odine Orion Platform.

Sincerely,

This statement has been translated into English for informational purposes. In case of a discrepancy between the Turkish and the English versions of this disclosure statement, the Turkish version shall prevail.

We proclaim that our above disclosure is in conformity with the principles set down in “Material Events Communiqué” of Capital Markets Board, and it fully reflects all information coming to our knowledge on the subject matter thereof, and it is in conformity with our books, records and documents, and all reasonable efforts have been shown by our Company in order to obtain all information fully and accurately about the subject matter thereof, and we’re personally liable for the disclosures.
