Explanations	

Entek Elektrik Üretim A.Ş., a subsidiary of our Company, which currently has 442 MW installed capacity, has applied to EMRA (Energy Market Regulatory Authority) with a commitment to establish energy storage facilities within the scope of the Regulation on Storage Activities in the Electricity Market published on 19.11.2022, in addition to its current capacity, Entek applied for pre-licenses of a total of 15 projects of 150 MW SPP and 854.5 MW WPP, totalling to 1,004.5 MW additional capacity. With the approval of pre-licenses, details of investment process, cost and financing of the projects to be implemented will be shared with our investors when they become clear.

This statement has been translated into English for informational purposes. In case of a discrepancy between the Turkish and the English versions of this disclosure statement, the Turkish version shall prevail.

We proclaim that our above disclosure is in conformity with the principles set down in “Material Events Communiqué” of Capital Markets Board, and it fully reflects all information coming to our knowledge on the subject matter thereof, and it is in conformity with our books, records and documents, and all reasonable efforts have been shown by our Company in order to obtain all information fully and accurately about the subject matter thereof, and we’re personally liable for the disclosures.
