<b>Announcement Content</b>	
<b>Explanations</b>	

As already announced in our Public Disclosure dated 21 January 2021, Aksa Enerji Üretim A.Ş.'s 100% subsidiary Aksa Energy Company Congo had signed a concession agreement with Republic of Congo about obtaining 30 year operating rights of a natural gas power plant in the city of Pointe-Noire with an installed capacity of 50 MW, later to be increased to 100 MW.

The operational activities of the first 25 MW unit of the Aksa Energy Congo power plant have started, and the electricity produced at the power plant is exported to the Democratic Republic of Congo and additional income has begun to be obtained from operational activities. Our activities continue in order to expand our activities in the Republic of Congo and increase the capacity of the relevant power plant.

Kind regards,

We proclaim that our above disclosure is in conformity with the principles set down in “Material Events Communiqué” of Capital Markets Board, and it fully reflects all information coming to our knowledge on the subject matter thereof, and it is in conformity with our books, records and documents, and all reasonable efforts have been shown by our Company in order to obtain all information fully and accurately about the subject matter thereof, and we’re personally liable for the disclosures.
