Announcement Content	
Explanations	

Our company has signed a new cooperation with Arçelik in the field of renewable energy.

Thanks to the innovative and compact "Arçelik Sunjunior" hybrid solar energy system product designed for both residential applications and commercial purposes, which will be launched together in cooperation with Arçelik – Europower Enerji, users will be able to use the electricity they have produced with solar panels at any time of the day, independently from the moment it is produced.

The products will be produced at Europower Enerji facilities, and will be produced under the brand name of "Arçelik Sunjunior", Arçelik being the sole authorized dealer in Turkey and Turkish Republic of North Cyprus.

We proudly present this to the public and our esteemed investors.

Regards,

This statement has been translated into English for informational purposes. In case of a discrepancy between the Turkish and the English versions of this disclosure statement, the Turkish version shall prevail.

We proclaim that our above disclosure is in conformity with the principles set down in “Material Events Communiqué” of Capital Markets Board, and it fully reflects all information coming to our knowledge on the subject matter thereof, and it is in conformity with our books, records and documents, and all reasonable efforts have been shown by our Company in order to obtain all information fully and accurately about the subject matter thereof, and we’re personally liable for the disclosures.
