Explanations	

In our Material Events Disclosure published on KAP on 19.09.2023, it was announced that an application had been made to the Energy Market Regulatory Authority (EMRA) for the preliminary license permit of the power plant with 37,650 MW mechanical power (32 MW electrical power), which was decided to be installed in the Konya Ereğli Paper Production Facility, whose investment continues in Konya Ereğli OIZ.

Our pre-license application regarding EMRA's decision numbered 12463-2 was deemed appropriate, and the relevant pre-license was granted to our Company for the investment of the Barem Packaging Cogeneration Facility production facility with an installed capacity of 37,650 MWm mechanical power (32,000 MWe electrical power) in Konya province, Ereğli district.

With the said preliminary license, the necessary permit, approval and license procedures for the Cogeneration Facility with a production capacity of 37,650 MWm mechanical power (32,000 MWe electrical power) have been started.

The English translation of this explanation is in the appendix, and in case of any difference in the text of the explanation, the Turkish explanation will be considered as the basis.

We proclaim that our above disclosure is in conformity with the principles set down in “Material Events Communiqué” of Capital Markets Board, and it fully reflects all information coming to our knowledge on the subject matter thereof, and it is in conformity with our books, records and documents, and all reasonable efforts have been shown by our Company in order to obtain all information fully and accurately about the subject matter thereof, and we’re personally liable for the disclosures.
