Explanations	

Following the earthquake safety analyses conducted on the Medical Park Çanakkale hospital building, potential structural issues have been identified, requiring further detailed inspections and assessments. Due to the risk to human life, our Board of Directors has decided to suspend the operations of this branch as of January 30, 2025. It is planned that our hospital will resume operations in a new building in Çanakkale within 18 months.

Additionally, an evaluation will be conducted to determine whether operations can continue in the existing building through structural reinforcement. If deemed feasible, the necessary strengthening measures will be implemented, and operations will continue at the same location.

The hospital, whose operations have been temporarily suspended, accounted for 1.1% of our consolidated hospital revenue in the first nine months of 2024.
