Announcement Content	
Explanations	

The 26.2 MWp portion of our Land SPP investment, which was previously announced to the public and is under construction on lands located in the Şehitkamil district of Gaziantep province, has been commissioned and electricity production has started. The total capacity of the investment will be 45.7 MWp, with a total investment amount of USD 25,000,000. The remaining portion of the investment is planned to be completed by the end of March 2025.

As part of our commitment to leaving a green and clean world for future generations and in line with our Company's sustainability principles; approximately 20% of our Company's current annual electricity consumption will be met by renewable energy sources upon the completion of this investment.

In the event of any discrepancy between the Turkish and English versions of this disclosure statement, the original Turkish version shall prevail. SASA disclaims all warranties and makes no representations about the accuracy or completeness of the English translation and assumes no liability for any errors, omissions or inaccuracies that may arise from use of this translation.

We proclaim that our above disclosure is in conformity with the principles set down in “Material Events Communiqué” of Capital Markets Board, and it fully reflects all information coming to our knowledge on the subject matter thereof, and it is in conformity with our books, records and documents, and all reasonable efforts have been shown by our Company in order to obtain all information fully and accurately about the subject matter thereof, and we’re personally liable for the disclosures.
