Explanations	

Our subsidiary, Pomega Enerji Depolama Teknolojileri A.Ş. ("POMEGA"), has received an order worth 54,621,000 USD (Fifty-Four Million Six Hundred Twenty-One Thousand US Dollars) excluding taxes, for the supply and commissioning of a total 303.5 MWh energy storage system. This includes Iğdır DGES (~97 MWh), İzmir Aliğa DGES (~20 MWh), Mardin Artuklu DGES (~40 MWh), and an additional ~145 MWh DGES at various domestic locations as part of our customer Egesa Elektrik İnşaat Enerji Üretim A.Ş.'s Licensed Solar Power Plant with Storage (DGES) projects.

This amount covers lithium battery cells, battery management systems, battery packs, energy storage systems, energy management systems, power conversion systems, field commissioning, and installation services, all manufactured by our company.

The project is expected to be completed in the third quarter of 2025 and will be the first project connected to the transmission grid once at least one facility is installed.

Turkish and English translations of this statement are available, and in case of any conflict between the Turkish and English versions of this statement, the Turkish version will prevail.

Respectfully submitted for the public's attention.

We proclaim that our above disclosure is in conformity with the principles set down in “Material Events Communiqué” of Capital Markets Board, and it fully reflects all information coming to our knowledge on the subject matter thereof, and it is in conformity with our books, records and documents, and all reasonable efforts have been shown by our Company in order to obtain all information fully and accurately about the subject matter thereof, and we’re personally liable for the disclosures.
