Explanations	

Our company's Land SSP project in the Şehitkamil district of Gaziantep province has been completed, and the entire facility, with a total capacity of 45.7 MWp, has been put into operation and started electricity production. With this USD 25,000,000 investment, approximately 20% of our company's current annual electricity consumption is being met by renewable energy sources.

In the event of any discrepancy between the Turkish and English versions of this disclosure statement, the original Turkish version shall prevail. SASA disclaims all warranties and makes no representations about the accuracy or completeness of the English translation and assumes no liability for any errors, omissions or inaccuracies that may arise from use of this translation.

We proclaim that our above disclosure is in conformity with the principles set down in “Material Events Communiqué” of Capital Markets Board, and it fully reflects all information coming to our knowledge on the subject matter thereof, and it is in conformity with our books, records and documents, and all reasonable efforts have been shown by our Company in order to obtain all information fully and accurately about the subject matter thereof, and we’re personally liable for the disclosures.
