Explanations	

Our subsidiary, EGaraj Elektrikli Taşıtlar Danışmanlık ve Servis Hizmetleri A.Ş. ("E-Garaj"), as is known, provides maintenance, repair, and appraisal services for electric vehicles, in addition to the purchase and sale of multi-brand new and second-hand electric vehicles. The Company is the distributor of YoYo, Hattat Regis, Tazzari, and EVclinic brands in Türkiye. In particular, through its distributorship of EVclinic, it aims to maintain its leadership in the maintenance and repair of electric vehicle motors and battery systems. Furthermore, it develops strategic collaborations with next-generation mobility companies such as Voltify, Alba e-bikes, and Actio.

According to the information communicated to our Company today by E-Garaj, an agreement has been signed with Türkiye's most established, German-partnered premium automotive brand regarding second-hand electric vehicle sales and appraisal partnership, and cooperation has been initiated. The agreement is expected to contribute positively to both revenue and profitability.

According to the December 2024 Monthly Statistics on Charging Services Market published by the Energy Market Regulatory Authority (EMRA), the number of electric vehicles in Türkiye increased significantly from 7,694 in 2021 to 185,513 in 2024,

and further to 268,057 as of June 2025, representing a growth of 3,480%. By the end of the same period, the total number of charging sockets also followed a similar upward trend, reaching 31,433 units. Based on these statistics, it is anticipated that the charging services market will continue to grow at an accelerating pace in the coming years.

Further developments will be publicly disclosed as they arise.

Respectfully submitted to the public and our investors.,
