Explanations	

As part of the first phase of the Refinery and Petrochemical Facilities planned to be established in the area designated as a Private Industrial Zone by Presidential Decree, SASA has initiated a tender process to develop the technical and economic feasibility for the refinery configuration. Within this framework, price proposals have been received from two international companies, and negotiations have commenced.

This study represents one of the most critical stages of the design process for the Refinery and Petrochemical Facilities and will contribute to finalizing the project's technical feasibility.

In the event of any discrepancy between the Turkish and English versions of this disclosure statement, the original Turkish version shall prevail. SASA disclaims all warranties and makes no representations about the accuracy or completeness of the English translation and assumes no liability for any errors, omissions or inaccuracies that may arise from use of this translation.

We proclaim that our above disclosure is in conformity with the principles set down in “Material Events Communiqué” of Capital Markets Board, and it fully reflects all information coming to our knowledge on the subject matter thereof, and it is in conformity with our books, records and documents, and all reasonable efforts have been shown by our Company in order to obtain all information fully and accurately about the subject matter thereof, and we’re personally liable for the disclosures.
