Explanations	

A new EPC (Engineering, Procurement, and Construction) contract has been executed between our Company and Fortis Renewable Energy BV, a company incorporated in the Netherlands, within the scope of the Nojac1 Project to be implemented in Serbia. The contract covers the construction of a Solar Power Plant with an installed capacity of 90 MW, together with an Energy Storage System with a capacity of 36 MWh.

The project is expected to contribute significantly to the strengthening of the host country's energy infrastructure through the integration of renewable energy generation and energy storage solutions. Furthermore, it constitutes an important project in terms of our Company's engineering and EPC capabilities, as well as the energy storage references of our subsidiary, Pomega Enerji Depolama Teknolojileri A.Ş.

This Material Event Disclosure has been prepared in both Turkish and English, and in case of any discrepancy between the two texts, the Turkish version shall prevail.
