Explanations	

Pursuant to our public disclosure dated March 1, 2024, our new coated glass line investment with a gross capacity of 6.5 million sqm/year in San Giorgio di Nogaro, Italy, which falls under the Controlled Investment Management principle of Şişecam Efficiency Management Program and is categorized as a priority investment, was completed and commissioned on February 16, 2026. Our coated glass line investment in Tarsus, Turkey is progressing as planned.

This investment, doubling Sisecam's number of coated glass lines in Italy and driving up Italy-based installed coated glass production capacity to 12.5 million sqm/year, aims to broaden Sisecam's customer base in Western Europe through strengthening the product portfolio with value-added glass products and enhance the efficiency of operational processes by expanding our footprint in Europe. As a result of this investment, Sisecam's coated glass production capacity has increased by 19%, reaching 41.1 million sqm/year, with a total investment cost of 25 million euros.

The relevant press release can be found attached.

In case of a discrepancy between the Turkish and the English versions of this disclosure statement, the Turkish version shall prevail.

We proclaim that our above disclosure is in conformity with the principles set down in “Material Events Communiqué” of Capital Markets Board, and it fully reflects all information coming to our knowledge on the subject matter thereof, and it is in conformity with our books, records and documents, and all reasonable efforts have been shown by our Company in order to obtain all information fully and accurately about the subject matter thereof, and we’re personally liable for the disclosures.
