Explanations	

It had previously been announced that, within the scope of the existing Supply License of our subsidiary Alen Alarko Enerji Ticaret A.Ş. ("Alen"), the license amendment application for the installation of Standalone Electricity Storage Facilities ("SESFs") with a total storage capacity of 1,000 MWh at four separate locations had been approved by the Energy Market Regulatory Authority and incorporated into the supply license.

Pursuant to Provisional Article 44 of the Regulation Amending the Electricity Market Licensing Regulation, one SESF with a storage capacity of 250 MWh was removed from Alen's supply license after the fulfillment of capital and collateral obligations for SESFs with a total storage capacity of 750 MWh located at three separate sites.

Alen's application to the Energy Market Regulatory Authority for an extension of the facility completion period for the three SESFs with a total storage capacity of 750 MWh was rejected by the Board, and consequently, all SESFs were removed from the supply license. The objection process initiated by Alen against this Board decision has been concluded , and pursuant to the Board decision dated 12.03.2026 and numbered 14383-4, the rejection of our objection was notified to Alen on 26.03.2026. A lawsuit has been filed before the administrative courts against the decision.

The English translation of this disclosure is provided in the annex hereto, and in the event of any discrepancy between the disclosure texts, the Turkish version shall prevail.

Respectfully announced to the public.
