Explanations	

The passenger statistics of our Company's indirect subsidiary Global Ports Holding ("GPH") have been published on our website in Turkish and English for April 2026. It can be accessed via Investor Relations - Reports - Passenger Statistics.

In April 2026, the number of consolidated cruise calls at our ports remained flat YoY, while consolidated passenger movements decreased by 5% YoY, compared to the same period of the previous year mainly due to the extended winter season in the Mediterranean region, adverse weather conditions during the period, and itinerary changes on certain sailings. In this context, developments in the Middle East had a limited and temporary impact, and no further impact is expected.

The occupancy rate of cruise ships calling at our ports was 107% on a consolidated basis in March 2026.

Including non-consolidated GPH ports, the total number of cruise calls at all our ports was 702 and total passenger movements amounted to 1,808,620 in April 2026.

In case of any discrepancy between the Turkish and English versions of this disclosure, the Turkish version shall prevail.

Respectfully announced to the public.

We proclaim that our above disclosure is in conformity with the principles set down in “Material Events Communiqué” of Capital Markets Board, and it fully reflects all information coming to our knowledge on the subject matter thereof, and it is in conformity with our books, records and documents, and all reasonable efforts have been shown by our Company in order to obtain all information fully and accurately about the subject matter thereof, and we’re personally liable for the disclosures.
