<b>Explanations</b>	

Within the scope of the Volatility Based Measures System (VBMS) that is being implemented in accordance with the Capital Markets Board's decisions, BIGEN.E shares will be subject to single price trading method measure from 10/06/2026 (beginning of the session) until 09/07/2026 (end of the session). Measures that are currently being implemented and defined in the earlier stages of the VBMS ("prohibition of short selling and margin trading", "gross settlement", and "order package" measures) will be in effect until the end date of the single price trading method measure.

Note: Measures implemented within the scope of the VBMS are considered separately from trading principles applied for the share as a result of the trading rules of the market/platform in which the share is traded, market segment changes, or other reasons. Accordingly, measures taken with respect to VBMS continue to be implemented until the end of the measure's implementation period irrespective of the validity period of the trading principles implemented with other regulations or decisions. For shares traded with "Continuous Trading with Market Maker" method, market making is not allowed until the end of the single price trading method measure.

Short selling which had been permitted only on stocks listed within the BIST 50 Index pursuant to the Capital Markets Board's (CMB) decision dated 05/12/2024, is banned on Borsa İstanbul Equity Market until the end of the session on 06/03/2026 with the CMB's decision dated 01/03/2026. This prohibition has been extended until the end of the trading session on 12/06/2026.
