Explanations	

A loan agreement amounting to USD 124 million was signed with the Hong Kong Branch of BBVA for the financing of Mersin Wind Power Plant with Storage investment with an installed capacity of 100.08 MW located in Mersin, Türkiye. The loan is covered by a guarantee from the China Export & Credit Insurance Corporation (Sinasure) and has a 12-year maturity, including a 2-year grace period. This agreement is of strategic importance as it further diversifies the Company's funding sources from a geographical perspective.

As Aksa Enerji, in line with our "Sustainable High Growth" strategy, we prioritize diversification in our generation portfolio and continue to invest in renewable energy technologies to achieve our 2030 targets.

Kind regards,

Note: In case of discrepancy between Turkish and English versions, Turkish version shall prevail.

We proclaim that our above disclosure is in conformity with the principles set down in "Material Events Communiqué" of Capital Markets Board, and it fully reflects all information coming to our knowledge on the subject matter thereof, and it is in conformity with our books, records and documents, and all reasonable efforts have been shown by our Company in order to obtain all information fully and accurately about the subject matter thereof, and we're personally liable for the disclosures.
