Announcement Content	
Explanations	

As disclosed to the public in our material event disclosure dated 17 February 2026, the installation works of the Solar Power Plant (SPP) investment at our factory located in Emirdağ, Afyonkarahisar have been completed, and the facility has been commissioned.

With an installed capacity of approximately 3,354.39 kWp, the power plant has commenced electricity generation from renewable energy sources. Once operated at full capacity, the plant is expected to meet approximately 16% of our factory's annual electricity consumption, reduce energy costs, and contribute to our sustainability objectives.

Our Company will continue to invest in initiatives aimed at reducing its environmental impact, improving energy efficiency, and strengthening its sustainable production approach.

This statement was translated into English for informational purposes. In case of a discrepancy between the Turkish and the English versions of this disclosure statement, the Turkish version shall prevail.

Respectfully announced to the public.

We proclaim that our above disclosure is in conformity with the principles set down in “Material Events Communiqué” of Capital Markets Board, and it fully reflects all information coming to our knowledge on the subject matter thereof, and it is in conformity with our books, records and documents, and all reasonable efforts have been shown by our Company in order to obtain all information fully and accurately about the subject matter thereof, and we’re personally liable for the disclosures.
