Explanations	

Mass production has begun for the 90 Retro Series tractor models, which our company unveiled at the 2026 Konya Agricultural Fair, and the first shipments have been made. Shipments to our dealers have begun, and deliveries to end customers are also underway.

The 90 Retro Series consists of models with 85, 95, 105, 115, and 125 beygir power ratings. With this series, our company has expanded its product portfolio; by introducing the 115 and 125 beygir models—which are new to our product lineup—to the market, we have begun offering products to our customers across a broader power range.

With the launch of the 90 Retro Series, our company aims to increase its product range and strengthen its product offerings for different customer segments.

In line with its sustainable growth strategy, our company will continue its efforts to develop products and strengthen its product portfolio, taking into account customer expectations and market dynamics.

We respectfully announce this to our investors and the public.

This English version has been prepared for informational purposes only. In case of any discrepancy between the Turkish and English versions, the Turkish version shall prevail.

We proclaim that our above disclosure is in conformity with the principles set down in “Material Events Communiqué” of Capital Markets Board, and it fully reflects all information coming to our knowledge on the subject matter thereof, and it is in conformity with our books, records and documents, and all reasonable efforts have been shown by our Company in order to obtain all information fully and accurately about the subject matter thereof, and we’re personally liable for the disclosures.
