| Impact Of New Business Relation On Company Activities                                                                                                             | The agreement is expected to contribute positively to the development of the geothermal investment project and the Company's future revenue-generating capacity. |
| Explanations                                                                                                                                                      |                                                                                                                                                                  |

In line with our Company's strategic objective of increasing its investments in the renewable energy sector, an agreement was signed on 27 October 2025 between a company incorporated in Türkiye and Bosphorus Yenilenebilir Enerji A.Ş., our wholly owned subsidiary, for the acquisition of nine Geothermal Resource Licenses located in the provinces of Denizli and Manisa, with a total installed capacity potential of 505 MWm. In order to develop and implement these investments, Margün Jeothermal Energy Generation Inc. (Margün Jeotermal Enerji Üretim A.Ş.) was established.

The transfer of the nine Geothermal Resource Licenses, with a total installed capacity potential of 505 MWm and located in the provinces of Denizli and Manisa, was completed as of 22 April 2026.

In connection with the planned drilling activities for the geothermal wells within the licensed fields, a service agreement has been signed today with Oilwell Dynamics for the provision of Project Management, Well Engineering, Field Supervision, and Technical Coordination services.

Respectfully announced to the public and our investors.
