Additional Explanations

As announced to the public via our Company's material event disclosure dated 04.06.2026, the review and evaluation process by the Capital Markets Board (CMB) is ongoing regarding our application for an issuance ceiling of debt instruments up to USD 300,000,000 or its equivalent. These instruments are planned to be issued abroad, in one or more tranches within a 1-year period, without a domestic public offering, in accordance with the provisions of the CMB's Communiqué on Debt Instruments. Within the scope of this evaluation process, it has been deemed necessary to update our application documents and process details in line with the requests and guidance of the CMB. Accordingly, our Company's Board of Directors convened and adopted Resolution No. 41, dated 20.07.2026, which incorporates the updates requested by the CMB. Following this resolution, our revised application documents and updated files have been submitted for the approval of the Capital Markets Board. There is no change regarding the USD 300,000,000 issuance ceiling or the international offering structure of the planned issuance. Following the CMB's approval of the issuance certificate, the final decision for the issuance will be made by determining the final amount, maturity, and interest rate, taking into consideration the market conditions on the date of issuance. Significant developments regarding the process will continue to be shared with the public and our investors. Respectfully announced to the public and our investors.
