Explanations	

In line with our objectives to enhance our global brand recognition and strengthen our international investor base, the application process regarding the trading of our company's shares on the US-based OTCQX Market has been successfully completed.

The application and review process, which initiated on June 9, 2026, in collaboration with the authorized advisory firm, has been finalized positively by the OTCQX management as of July 22, 2026, and official listing approval for the admission of our shares to the OTCQX Best Market has been granted.

Our shares will commence trading on the OTCQX Best Market under the ticker symbol "GERLF".

Through this milestone, we aim to ensure the transparent access of our independently audited financial data to international markets, directly reach US-based retail and institutional investors, and maximize our visibility among global funds and financial institutions.

Respectfully submitted to the public and our investors.

We proclaim that our above disclosure is in conformity with the principles set down in “Material Events Communiqué” of Capital Markets Board, and it fully reflects all information coming to our knowledge on the subject matter thereof, and it is in conformity with our books, records and documents, and all reasonable efforts have been shown by our Company in order to obtain all information fully and accurately about the subject matter thereof, and we’re personally liable for the disclosures.
