Explanations	

Aksa Energy, with presence in Ghana since 2017 and contributing to the country's energy access through 549 MW of installed capacity, has signed an agreement with Electricity Company of Ghana regarding installation of 825 MW combined cycle natural gas power plant and guaranteed USD based sales of the electricity produced for 20 years. Upon the completion of Takoradi natural gas power plant, which will be one of the biggest power plants in Africa and Ghana, Aksa Energy's installed capacity in Ghana will reach 1,545 MW.

As Aksa Energy, we continue to further increase our penetration in existing regions and contribute to supply security and economic growth in parallel with our strategy of "Sustainable High Growth".

Kind regards,

Note: In case of discrepancy between Turkish and English versions, Turkish version shall prevail.

We proclaim that our above disclosure is in conformity with the principles set down in “Material Events Communiqué” of Capital Markets Board, and it fully reflects all information coming to our knowledge on the subject matter thereof, and it is in conformity with our books, records and documents, and all reasonable efforts have been shown by our Company in order to obtain all information fully and accurately about the subject matter thereof, and we’re personally liable for the disclosures.
