Explanations	

In our Company's material event disclosures dated April 15, 2026 and April 17, 2026, the public was informed of the Letter of Intent signed between our Company and our customer based in the United States of America for the sale of solar panels, related components and aluminum frames, as well as the process regarding the development of the said cooperation.

At this stage, as a result of the technical and commercial work carried out between the parties within the scope of the said Letter of Intent, an order amounting to USD 2.7 million has been received as the first step toward the implementation phase of the cooperation. The sale of the products under the said order is expected to constitute an important step in terms of the technical and commercial evaluation of the products, confirmation of their suitability for the customer's needs, and the continuation and shaping of the subsequent stages of the long-term cooperation between the parties.

Developments regarding the subsequent stages of the cooperation will be shared with the public.

Respectfully submitted for the information of the public and our investors.
