Explanations	

We were notified on September 7, 2026 (today) that the Energy Market Regulatory Authority ("EMRA") decided - via Board Decision No. 14842-11 dated September 3, 2026 - to grant a generation license (License No. EÜ/14842-11/06801) with a term of 49 (forty-nine) years for the Gelinkaya Solar Power Plant (SPP) project with storage, which has an installed capacity of 35.75 MWm/30 MWe and is planned to be established in the Aşkale district of Erzurum province by Akfen Elektrik Enerjisi Toptan Satış A.Ş., a wholly-owned subsidiary of our company.

Thus, the generation license has been obtained for the first project within the scope of our second-phase investments - comprising six Electricity Storage Facility projects (utilizing solar and wind power) with a total installed capacity of 310 MW—as outlined in the investor presentation regarding future projections that we disclosed on the Public Disclosure Platform on May 13, 2026. Meanwhile, the permitting processes for the other projects, as well as the technical and financial studies related to the investments, are ongoing.

It is targeted that our Company's **total installed capacity**, currently at 887 MW, will rise to approximately **1,200 MW** by the end of 2028, upon the completion of our second-phase investments.

This statement has been translated into English for informational purposes. In the event of any discrepancy between the Turkish and English versions of this disclosure statement, the Turkish version shall prevail.

We proclaim that our above disclosure is in conformity with the principles set down in “Material Events Communiqué” of Capital Markets Board, and it fully reflects all information coming to our knowledge on the subject matter thereof, and it is in conformity with our books, records and documents, and all reasonable efforts have been shown by our Company in order to obtain all information fully and accurately about the subject matter thereof, and we’re personally liable for the disclosures.
