If Exist Significant Provisions Of The Contract	-
Impact Of New Business Relation On Company Activities	Positive Effect on Turnover and Profitability
Explanations	

Within the framework of our company's export activities in overseas markets, we have signed sales agreements for irrigation and infrastructure projects with a total value of EUR 5,744,160 (TRY 322,416,240.34 – based on the CBRT foreign exchange selling rate).

Leading these agreements is the sale of GRP (fiberglass-reinforced plastic) and HDPE pipes within the scope of the "Rehabilitation and Expansion of Briceni Region Irrigation Systems Project" in Moldova, which is financed by a World Bank loan.

In addition, a contract has been concluded with a company operating in Poland for the sale of GRP pipes to be used in the construction of a power plant, which also covers field and engineering services.

The deliveries in question are expected to be completed gradually throughout 2026. It is estimated that the impact of this commercial volume on our 2026 sales target will be at the level of 2.5%.
