Explanations	

A need has arisen to accurately inform our investors and the public regarding the assessments and news concerning our company, Erbosan Erciyas Boru Sanayii ve Ticaret A.Ş., and our financial performance, which have recently appeared on certain websites and social media platforms.

It has been determined that the data and ratios included in the aforementioned posts:

1. Do not clearly specify the base periods used for their calculation,
2. Do not align with our company's official, independently audited financial statements disclosed on the Public Disclosure Platform (KAP),
3. Lead to misleading interpretations for investors by relying on incomplete comparisons or methodologies lacking clarity, while disregarding market conditions and cyclical economic factors.

When evaluating the news and rumors in question, the following should be considered:

Inflation adjustment standards create significant accounting impacts on our company's financial statements due to monetary position updates. The reporting variances resulting from these adjustments can yield outcomes independent of operational cash flow and core operating performance, thereby rendering superficial comparisons with past periods misleading.

In accordance with the principle of transparency and within the framework of Capital Markets Board (SPK) regulations and Borsa Istanbul legislation, our company periodically discloses all its financial results, debt structure, and activity reports to the public.

To ensure that our investors and the public have access to accurate information regarding our company's financial structure and operating results, we kindly request to rely solely on the information provided by our company via Public Disclosure Platform KAP (www.kap.org.tr) and the official statements and financial reports issued via our official corporate website (www.erbosan.com.tr).

Respectfully announced to the public and our investors

In case of any discrepancy or inconsistency between the Turkish and English versions of this disclosure, the Turkish version shall prevail.

We proclaim that our above disclosure is in conformity with the principles set down in “Material Events Communiqué” of Capital Markets Board, and it fully reflects all information coming to our knowledge on the subject matter thereof, and it is in conformity with our books, records and documents, and all reasonable efforts have been shown by our Company in order to obtain all information fully and accurately about the subject matter thereof, and we’re personally liable for the disclosures.
