Announcement Content	
Explanations	

In our material event disclosure dated 1 December 2025, we announced that our subsidiary, Isbir Mewar Private Ltd., operating in Udaipur, India, had commenced an investment to increase its production capacity in response to growing demand.

We completed the investment in October 2026. Machinery installation and commissioning activities have been completed at the new 5,350-square-meter production facility that we leased opposite our existing factory, bringing our total production area in India to 15,350 square meters.

With the commissioning of the new production lines, we have increased the monthly production capacity of our Indian factory from the previously announced level of 450 tonnes to 800 tonnes as of October 2026.

Provided that favorable demand conditions persist, we expect this capacity increase to contribute positively to our consolidated sales volume and operating results.

This disclosure has been translated into English for informational purposes. In the event of any discrepancy between the Turkish and English versions of this disclosure, the Turkish version shall prevail.

Respectfully submitted for the information of the public.

We proclaim that our above disclosure is in conformity with the principles set down in “Material Events Communiqué” of Capital Markets Board, and it fully reflects all information coming to our knowledge on the subject matter thereof, and it is in conformity with our books, records and documents, and all reasonable efforts have been shown by our Company in order to obtain all information fully and accurately about the subject matter thereof, and we’re personally liable for the disclosures.
