Explanations	

In our material event disclosure dated January 27, 2026, we announced that the lawsuit filed by our subsidiary, Enerjisa Müşteri Çözümleri A.Ş., seeking the annulment of the decision of the Energy Market Regulatory Authority (EMRA) concerning the withdrawal of the pre-license approval and the rejection of the pre-license application for the solar energy-based electricity generation facility with storage, planned to have a capacity of 21 MWm/15 MWe in the Eldivan district of Çankırı province, had been dismissed and that the legal process regarding the dismissal would continue.

The appeal filed by our subsidiary against the dismissal has been rejected by the Council of State, and the court's judgment has been upheld as final and binding.

Kind regards.

This statement has been translated into English for informational purposes. In case of a discrepancy between the Turkish and the English versions of this disclosure statement, the Turkish version shall prevail.

We proclaim that our above disclosure is in conformity with the principles set down in “Material Events Communiqué” of Capital Markets Board, and it fully reflects all information coming to our knowledge on the subject matter thereof, and it is in conformity with our books, records and documents, and all reasonable efforts have been shown by our Company in order to obtain all information fully and accurately about the subject matter thereof, and we’re personally liable for the disclosures.
