Explanations	

A contract amounting to USD 2,214,000, including VAT, was signed between our Company, Link Bilgisayar Sistemleri Yazılımı ve Donanımı A.Ş., and the Gelişim Yapı Sanayi ve Ticaret A.Ş. – Ardalya İnşaat A.Ş. Joint Venture for automation system works within the scope of the "Turkish Airlines (THY A.O.) Istanbul Airport OC Car Park and Office Building Construction Works" project on 25.11.2026.

Within the scope of the project, an integrated technology infrastructure comprising next-generation smart parking management systems, image-based vehicle detection and license plate recognition technologies, smart sensors, digital guidance systems, centralized management software, and integrated sustainability solutions will be implemented to provide the newly constructed car park with a smart, user-friendly, and sustainable management infrastructure.

The integrated technology infrastructure aims to ensure quick and easy access to parking spaces, enhance the user experience, reduce unnecessary vehicle circulation, enable real-time and centralized management of parking operations, and improve efficiency in the use of time, energy, and resources. By integrating carbon footprint calculation, monitoring, and reporting capabilities into parking management processes, the project also aims to make environmental performance measurable and manageable.

The contract is of importance to the development of our Company's operations in the fields of smart infrastructure technologies, smart mobility, sustainability, and system integration, as well as to its growth strategy based on high-value-added technology solutions.

The contract is expected to contribute positively to our Company's operations and financial performance.

Respectfully announced to the public and our investors.

This material event disclosure has been prepared in both Turkish and English. In the event of any discrepancy between the two versions, the Turkish version shall prevail.

We proclaim that our above disclosure is in conformity with the principles set down in “Material Events Communiqué” of Capital Markets Board, and it fully reflects all information coming to our knowledge on the subject matter thereof, and it is in conformity with our books, records and documents, and all reasonable efforts have been shown by our Company in order to obtain all information fully and accurately about the subject matter thereof, and we’re personally liable for the disclosures.
