2. Basis of presentation of consolidated financial statements

2.1 Basis of presentation

Financial reporting standards

The Group and its subsidiaries established in Türkiye, prepare its consolidated financial statements in accordance with the Turkish Commercial Code (TCC) numbered 6102, tax legislation and the Uniform Chart of Accounts published by the Ministry of Finance.

The accompanying consolidated financial statements are prepared in accordance with the requirements of Capital Markets Board ("CMB") Communiqué Serial II, no: 14.1 "Basis of Financial Reporting in Capital Markets", which were published in the Official Gazette No:28676 on June 13, 2013. The accompanying consolidated financial statements are prepared based on the Turkish Financial Reporting Standards and Interpretations ("TAS/IFRS") that have been put into effect by the Public Oversight Accounting and Auditing Standards Authority ("POA").

The consolidated financial statements and notes are presented in accordance with the "2024 TAS Taxonomy" announced by the POA with the principal decision dated July 3, 2024. The consolidated financial statements are based on legal records and expressed in TL, and have been prepared by subjecting to some corrections and classification changes in order to present the Group's status according to TAS and IFRS.

Foreign currency

Functional and reporting currency

The consolidated financial statements are presented in TL, which is the functional and presentation currency of the Group.

Foreign currency transactions and balances

Foreign currency transactions have been converted over the exchange rates valid on the dates of the transaction. Monetary assets and liabilities based on foreign currency are converted using the exchange rates valid on the date of the statement of financial position. Exchange difference income or expense arising from foreign currency-based operational transactions (trade receivables and debts) is presented under the "other income / expenses from operating activities", while the exchange difference income or expense arising from the translation of other foreign currency based monetary assets and liabilities is presented under "finance income / expenses" in the consolidated statement of profit or loss.

2. Basis of presentation of consolidated financial statements (continued)

2.1 Basis of presentation (continued)

Adjustment of Financial Statements in High Inflation Periods

In accordance with the decision of the CMB dated December 28, 2023 and numbered 81/1820, it has been decided that issuers and capital market institutions subject to financial reporting regulations that apply Turkish Accounting/Financial Reporting Standards will apply inflation accounting by applying the provisions of TAS 29, starting from their annual financial reports for the accounting periods ending as of December 31, 2023. Based on the aforementioned CMB decision, the announcement made by the KGK on November 23, 2023, and the “Implementation Guide on Financial Reporting in Hyperinflationary Economies” published, the Group has prepared its consolidated financial statements for the period and ending on the same date as of March 31, 2026, by applying the TAS 29 “Financial Reporting in Hyperinflationary Economies” Standard. According to this standard, consolidated financial statements prepared based on the currency of an economy with high inflation should be prepared in the purchasing power of this currency at the balance sheet date and the financial statements of previous periods should be restated in terms of the current measurement unit at the end of the reporting period. For this reason, the Group has presented its consolidated financial statements as of December 31, 2025, based on purchasing power as of March 31, 2026. Except for financial investments, assets and liabilities are prepared based on historical cost.

The re-arrangements made in accordance with TAS 29 were made using the correction coefficient obtained from the Consumer Price Index (“CPI”) in Türkiye published by the Turkish Statistical Institute (“TÜİK”). As of March 31, 2026, the indexes and correction coefficients for the current and comparative periods used in the correction of the consolidated financial statements are as follows:

| Period end | Index | Index, % | Three-year cumulative inflation rates |
|-------------------|--------------|-----------------|--|
| March 31, 2026 | 121,47 | 1,00000 | 205% |
| December 31, 2025 | 110,39 | 1,10040 | 211% |
| March 31, 2025 | 92,82 | 1,30865 | 250% |

2. Basis of presentation of consolidated financial statements (continued)

2.1 Basis of presentation (continued)

Adjustment of Financial Statements in High Inflation Periods (continued)

Assets and liabilities were separated into those that were monetary and non-monetary, with non-monetary items were further divided into those measured on either a current or historical basis to perform the required restatement of consolidated financial statements under TAS 29. Monetary items (other than index -linked monetary items) and non-monetary items carried at amounts current at the end of the reporting period were not restated because they are already expressed in terms of measuring unit as of March 31, 2026. Non-monetary items which are not expressed in terms of measuring unit as of March 31, 2026, were restated by applying the conversion factors. The restated amount of a non-monetary item was reduced, in accordance with appropriate TFRSs, in cases where it exceeds its recoverable amount or net realizable value. Components of shareholders’ equity in the statement of financial position and all items in the statement of profit or loss and other comprehensive income have also been restated by applying the conversion factors.

Non-monetary items measured at historical cost that were acquired or assumed and components of shareholders’ equity that were contributed or arose before the time when the Turkish lira previously ceased to be considered currency of hyperinflationary economy, i.e before January 1, 2005, were restated by applying the change in the CPI from January 1, 2005 to March 31, 2026.

The application of TAS 29 results in an adjustment for the loss of purchasing power of the Turkish lira presented in Net Monetary Position Gains (Losses) item in the profit or loss section of the statement of profit or loss and comprehensive income. In a period of inflation, an entity holding an excess of monetary assets over monetary liabilities loses purchasing power and an entity with an excess of monetary liabilities over monetary assets gains purchasing power to the extent the assets and liabilities are not linked to a price level. This gain or loss on the net monetary position is derived as the difference resulting from the restatement of non-monetary items, owners’ equity and items in the statement of profit or loss and other comprehensive income and the adjustment of index linked assets and liabilities.

Going concern

The Group has prepared its consolidated financial statements according to the going concern principle.

Declaration of conformity to TFRS

The Group’s has prepared its consolidated financial statements for the period ending on March 31, 2026, in accordance with the CMB’s Communiqué Serial: II-14.1 and its announcements clarifying this communiqué. The consolidated financial statements and notes are presented in accordance with the formats recommended by CMB and including the required information.

2.1 Basis of presentation (continued)

Comparative Information and Reclassification of Prior Period Financial Statements

In order to enable the identification of financial position and performance trends, the Group’s interim condensed consolidated financial statements are prepared on a comparative basis with the prior period. Accordingly, the condensed consolidated statement of financial position as of March 31, 2026 is presented together with the consolidated statement of financial position as of December 31, 2025, and the condensed consolidated statements of profit or loss, other comprehensive income, cash flows and changes in equity for the period January 1 – March 31, 2026 are presented comparatively with the corresponding condensed consolidated statements for the period January 1 – March 31, 2025.

Except for the changes described in the paragraph below, the Group has applied detailed reporting policies in its condensed consolidated financial statements for the periods it presents, and there have been no significant changes in accounting policies and estimates during the current period.

The Group has reclassified the balance amounting to TL 141,493 thousand, previously presented under other short-term provisions, to other short-term liabilities as of December 31, 2025.

The Group has reclassified the balance of TL 117,497 thousand previously presented under other non-current liabilities as of December 31, 2025, to non-current provisions.

2.2 Consolidation principles

- (a) Consolidated financial statements include the accounts of the Group and its subsidiaries prepared according to the principles stated below. During the preparation of the financial statements of the companies included in the scope of consolidation, necessary corrections and classifications were made in terms of compliance with TFRS and the accounting policies and presentation styles applied by the Group.
- (b) The subsidiaries controlled by the Group has been included in the consolidated financial statements by full consolidation method. Control is provided only when all of the following indicators are present on the enterprise in which the Group invests;
 - a) has power over the enterprise in which it invests,
 - b) is exposed to or is entitled to varying returns due to its relationship with the investee,
 - c) has the ability to use its power over the investee to influence the amount of returns it will generate.

2.2 Consolidation principles (continued)

During the consolidation process, the registered participation values of the shares owned by the Group and its subsidiaries were netted mutually with the relevant equities. Intra-group transactions and balances between the Group and the subsidiaries have been netted during the consolidation process. The registered values of the shares owned by the Group and the dividends arising from them have been netted from the relevant equity and profit or loss statement accounts.

The subsidiaries have been included in the scope of consolidation as of the date the control over its activities was transferred to the Group.

Subsidiaries

As of March 31, 2026 and December 31, 2025, the activities of the consolidated subsidiaries and the operating segments in which the subsidiaries operate in line with the purpose of the consolidated financial statements are as follows:

2. Basis of presentation of consolidated financial statements (continued)

2.3 Accounting policies, changes in accounting estimates and errors

If a change in accounting estimates affects only the current period, it is applied prospectively in the period of the change. If it affects both the current and future periods, it is applied prospectively in both the period of the change and future periods. The significant estimates used in the preparation of the financial statements for the period ended March 31, 2026 are consistent with those applied in the preparation of the financial statements for the year ended December 31, 2025.

2.4 The new standards, amendments and interpretations

The accounting policies adopted in preparation of the consolidated financial statements as of March 31, 2026 are consistent with those of the previous financial year, except for the adoption of new and amended TFRS and TFRS interpretations effective as of January 1, 2026 and thereafter. The effects of these standards and interpretations on the Group’s financial position and performance have been disclosed in the related paragraphs.

i) The new standards, amendments and interpretations which are effective as of January 1, 2026 are as follows:

- Amendment to IFRS 9 and IFRS 7 - Classification and Measurement of Financial Instruments
- Annual improvements to IFRS – Volume 11
- Amendment to IFRS 9 and IFRS 7 - Contracts Referencing Nature-dependent Electricity

The amendments did not have a significant impact on the financial position or performance of the Group.

ii) Standards issued but not yet effective and not early adopted

Standards, interpretations and amendments to existing standards that are issued but not yet effective up to the date of issuance of the financial statements are as follows. The Group will make the necessary changes if not indicated otherwise, which will be affecting the financial statements and disclosures, when the new standards and interpretations become effective.

- IFRS 17 Insurance Contracts
- IFRS 18 Presentation and Disclosure in Financial Statements
- IFRS 19 Subsidiaries without Public Accountability: Disclosures
- Amendment to IFRS 19 Subsidiaries without Public Accountability: Disclosures
- Amendments to IAS 21 - Translation to a Hyperinflationary Presentation Currency

The amendments did not have a significant impact on the financial position or performance of the Group.

2. Basis of presentation of consolidated financial statements (continued)

2.5 Summary of significant accounting policies

Interim condensed consolidated financial statements for the period ending on March 31, 2026 have been prepared in accordance with the TAS 34 standard for the preparation of interim summary condensed consolidated financial statements of TAS / TFRS.

The interim condensed consolidated financial statements for the period ending on March 31, 2026 have been prepared by applying accounting policies consistent with the accounting policies applied during the preparation of the consolidated financial statements for the year ended on December 31, 2025. Therefore, these condensed consolidated financial statements should be evaluated together with the consolidated financial statements for the year ended December 31, 2025.

2.6 Significant accounting judgments estimates and assumptions

In preparing the condensed consolidated financial statements, Group management is required to use estimates and assumptions that may affect the amounts of assets and liabilities reported as of March 31, 2026, the disclosure of contingent assets and liabilities, and the amounts of income and expenses reported during the accounting period. Accounting judgments, estimates and assumptions are continuously evaluated by considering past experience, other factors and reasonable expectations about future events under current conditions. Necessary corrections are made and presented in the profit or loss statement in the period when it is realized. Although these estimates and assumptions are based on management's best knowledge of current events and transactions, actual results may differ from their assumptions.

- a) Mining assets consist of mine site development costs, mining rights, mining lands, deferred stripping costs and discounted costs associated with the improvement, rehabilitation and closure of mine sites. Mining assets are accounted in the consolidated financial statements with their net book value after deducting the accumulated depreciation and permanent impairment, if any, from their acquisition costs. Mining assets start to be amortized on a production basis according to producible ore reserve with the commencement of production. The depreciation expenses of the mining assets are associated with the production costs on the basis of the relevant mining sites.

Within the scope of long-term plan studies, which are regularly updated, the Group conducts studies to determine the remaining reserves of mining assets, production-based depreciation calculations, and rehabilitation provisions within this scope.

The Group management reviews the estimates made in relation to the measured and probable mineral reserves at each balance sheet date. In order to determine the quantity of measured, indicated and inferred mineral reserves, the 2025 UMREK Report, prepared in accordance with the National Mineral Resource and Reserve Reporting Committee (UMREK) reporting code, was completed and approved in line with UMREK standards as of March 31, 2026.

Within the scope of these studies, the assumptions and methods used in determining the mineral reserves contain some uncertainties (such as gold prices, exchange rates, geographic and statistical variables), and the assumptions and methods developed in relation to the mineral reserve may change significantly depending on the availability of new information. The cost and depreciation of mining assets are adjusted prospectively based on these updates.

Notes to the condensed consolidated financial statements for the period ended March 31, 2026

(Amounts are expressed in thousands of TL, based on the purchasing power of Turkish Lira ("TL") as of March 31, 2026, unless otherwise stated.)

2. Basis of presentation of consolidated financial statements (continued)

2.6 Significant accounting judgments estimates and assumptions

b) Mining assets are amortized using the "production" method and the visible and possible gold reserve amount is used to calculate the depreciation rate. Other tangible assets, both movable and fixed, other than mining assets are depreciated using the straight-line method over their useful lives, limited with lifetime of the mines they are related to. The depreciation amounts calculated on the basis of the visible and possible gold reserves and using the production unit's method may vary between periods and for some mining assets, the depreciation may be affected by the deviation between the actual and estimated production amounts. These differences arise from the variables or assumptions stated below;

- Changes in the amount of visible and possible gold reserves as a result of the work done,
- The reserve's tenor ("grade") ratio, which can vary significantly from time to time, actual gold price and the estimated gold price taken into account in reserve valuation and tenor determination studies,
- Other matters that may occur in the mine sites and cannot be predicted in advance and may affect the activities,
- Unpredictable changes in mining, processing and rehabilitation costs, discount rates, exchange rate changes,
- The effects of changes in mineral life on the useful life of tangible assets depreciated with the straight-line method and whose useful life are limited to the mine life.

The impairment tests performed by the Group management depend on the management's estimates about the future gold prices, current market conditions, exchange rates and pre-tax discount rate together with the relevant project risk. The recoverable value of the cash-generating units is determined as the higher one from the use value of the relevant cash-generating unit or its fair value after deducting sales costs. These calculations require the use of some assumptions and estimates. Changes in assumptions and estimates based on gold prices may affect the useful life of mines, and conditions may arise that may require adjustment on the carrying values of both goodwill and related assets.

Assets are grouped as independent and smallest cash generating units. If an impairment indicator is determined, estimates and assumptions are established for the cash flows to be obtained from each cash-generating unit determined. Impairment tests of both tangible assets and goodwill contain a certain amount of uncertainty due to the estimates and assumptions used. This uncertainty arises from the amount of visible and possible workable gold reserves used, current and future predicted gold prices, discount rates, exchange rates and estimated production costs.

Notes to the condensed consolidated financial statements for the period ended March 31, 2026

(Amounts are expressed in thousands of TL, based on the purchasing power of Turkish Lira (“TL”) as of March 31, 2026, unless otherwise stated.)

2. Basis of presentation of consolidated financial statements (continued)

2.6 Significant accounting judgments estimates and assumptions (continued)

- c) The number of provisions reflected in consolidated financial statements regarding environmental rehabilitation, improvement of mine sites and closure of mine sites is based on the plans of the Group management and the requirements of the relevant legal regulations. Changes in the aforementioned plans and legal regulations, up-to-date market data and prices, discount rates used, changes in estimates based on mineral resources and reserves may affect provisions.

As of March 31, 2026, the Group reassessed the provision amounts due to changes in discount rates, costs, production areas subject to rehabilitation and reserve lifetimes. The Group evaluates the mine rehabilitation provision annually. Significant estimates and assumptions are made in determining the provision for mine rehabilitation due to the large number of factors that may affect the final liability to be paid. These factors include estimates of the scope and cost of rehabilitation activities, technological changes, changes in regulations, cost increases proportional to inflation rates and changes in net discount rates (March 31, 2026: 3.68%, December 31, 2025: 3.69%). These uncertainties may cause future expenditures to differ from the amounts estimated today.

The provision amount at the reporting date represents the best estimate of the present value of future rehabilitation costs. Changes in estimated future costs are accounted in the balance sheet by increasing or decreasing the rehabilitation obligation or asset if the initial estimate was initially recognized as part of an asset measured in accordance with TAS 16 Property, plant and equipment. Any reduction in the rehabilitation obligation and hence any reduction in the rehabilitation asset cannot exceed the carried value of that asset. In case of excess, the amount exceeding the carried value is immediately taken to profit or loss.

- d) As the Group operates in the mining industry, it is exposed to many risks arising from laws and regulations. As of the balance sheet date, the results of current or future legal practices can be estimated within a certain ratio, based on the past experiences of the Group management and as a result of the legal consultancy received. Negative effects of a decision or application that may be taken against the Group may significantly affect the activities of the Group. As of March 31, 2026, there is no legal risk expected to significantly affect the activities of the Group.
- e) At the stage of determining the amount of the provision for the lawsuits, the management consider the possibility of the ongoing lawsuits to be concluded against the Group and the legal advisors' evaluation of the consequences that may arise in case these lawsuits are concluded against the Group. The Group management makes the best estimate based on the information provided.
- f) The gold in circuit inventory amount, which is followed as a semi-finished product and has not yet turned into finished gold during the production process, is evaluated separately for each production facility by making technical production calculations and estimations. The gold in circuit process, which is common for both tank leaching and heap leach production plants, ends after finished gold is obtained. Since the production processes of tank leaching and heap leaching facilities are different from each other, the amount of gold stock in the circuit differs on the basis of facilities, and the estimated amount of gold that can be obtained from the gold in circuit stocks of each facility at the end of the production process and the life of mine is analyzed based on technical calculations.

12. Provisions, contingent assets and liabilities (continued)

c) Provisions for employee benefits (continued)

Under the Turkish Labour Law, the Group is required to pay employment termination benefits to each employee who has qualified for such benefits as the employment ended. Also, employees who are entitled to a retirement are required to be paid retirement pay in accordance with Law No: 2422 dated March 6, 1981 and No: 4447 dated August 25, 1999 and the amended Article 60 of the existing Social Insurance Code No: 506. Some transition provisions related to the pre-retirement service term were excluded from the law since the related law was changed as of May 23, 2002.

The principal assumption is that the maximum liability for each year of service will increase in line with inflation. Thus, the discount rate applied represents the real rate net of expected effects of inflation. The severance pay ceiling is revised every six months, and the ceiling amount of TL 64,948.77 (2025: TL 64,948.77) was taken into consideration in the calculation of the provision for severance pay. TFRS requires actuarial valuation methods to be developed to estimate the provision for severance pay. Accordingly, the following actuarial assumptions were used in the calculation of the total liability:

| | March 31, 2026 | December 31, 2025 |
|---|----------------|-------------------|
| Net discount rate | 4,10% | 4,10% |
| Probability of qualifying for seniority | 95,09% | 95,09% |

The movements of the provision for severance pay within the accounting periods of March 31, 2026 and 2025 are as follows:

| | 2026 | 2025 |
|-----------------|----------------|----------------|
| January 1 | 356.522 | 315.173 |
| Interest cost | - | 19.037 |
| Service cost | - | 6.473 |
| Severance paid | - | (53.916) |
| Actuarial loss | - | 68.725 |
| Monetary gain | (32.520) | (28.815) |
| March 31 | 324.002 | 326.677 |

Severance pay liability is not legally subject to any funding. Provision for severance pay is calculated by estimating the present value of the future probable obligation of the Group arising from the retirement of the employees. TAS 19 ("Employee Benefits") stipulates the development of Group's liabilities within the scope of defined benefit plans by using actuarial valuation methods.

The sensitivity analysis of the important assumptions used in the calculation of the provision for employee termination benefits as of March 31, 2026 and 2025 is as follows:

| | Discount rate | | Rate of retirement | |
|-----------------------|------------------|--------------------|--------------------|------------------|
| | 100 bps increase | 100 bps decrease | 100 bps increase | 100 bps decrease |
| March 31, 2026 | (28.013) | 69.467 | 7.356 | (13.798) |
| | Discount rate | Rate of retirement | 100 bps increase | 100 bps decrease |
| March 31, 2025 | (42.308) | 51.336 | 11.110 | (10.197) |

d) Important ongoing cases

i- Lawsuits related to mines

These lawsuits are related to the expansion of the activities in some licensed fields and / or the permits and licenses of the new areas to be operated.

Lawsuits related to Çukuralan mine:

A lawsuit was filed by the İzmir Metropolitan Municipality on February 25, 2025, before the İzmir 2nd Administrative Court under case number 2025/594 E., requesting the suspension and cancellation of the Environmental Impact Assessment (EIA) Positive decision issued by the Ministry of Environment, Urbanization and Climate Change for the Çukuralan Gold Mine Crushing and Screening Facility Project, which is planned to be constructed by the Company in the Çukuralan neighborhood, Dikili district of İzmir province, with an annual capacity of 500,000 tons. The Company submitted a petition to intervene in the case, and the court accepted the Company’s request for intervention.

In addition, a lawsuit regarding the same matter has been filed by EGEÇEP and Osman Nuri Özgüven before the İzmir 6th Administrative Court under file number 2025/585 E. The Company has submitted a request to intervene in the case, and this request has been accepted by the court. Due to the connection between the two cases concerning the Çukuralan Gold Mine, the İzmir 6th Administrative Court has been designated as the competent court to hear both cases. Accordingly, the proceedings under file number 2025/594 E. before the İzmir 2nd Administrative Court are continuing under file number 2025/1242 E. before the İzmir 6th Administrative Court.

In both case files, an on-site inspection and expert examination were conducted on October 31, 2025, and subsequently, the expert report dated February 2, 2026 was duly served to the parties. Within the prescribed legal period, Türk Altın submitted its statements and objections to the expert report. By the decisions dated March 17, 2026, the Court rejected the requests for stay of execution in both case files. Hearings for both cases have been scheduled for May 12, 2026. No judgment has yet been rendered in relation to the relevant case files, and the proceedings are ongoing.

Lawsuits related to Çanakkale mine:

Several lawsuits have been filed against the Ministry of Environment, Urbanization and Climate Change before the 1st Administrative Court of Çanakkale in relation to the Environmental Impact Assessment (“EIA”) positive decision issued for the “Gold–Silver Mine Open Pit Operation” project planned by Türk Altın İşletmeleri A.Ş. in the Serçiler and Terziler villages of the Central district of Çanakkale province. The lawsuits seek primarily the stay of execution of the EIA positive decision and the annulment of the related administrative act. In this context, lawsuits were filed by the Chamber of Agricultural Engineers of TMMOB (File No. 2025/1070 E.), Çanakkale Municipality (File No. 2025/1054 E.), and Eskişehir Ecology Association, Mehmet Ercan and İbrahim Yakar (File No. 2025/1073 E.). Various third parties submitted petitions to intervene in support of the claimants, including Eskişehir Metropolitan Municipality (October 14, 2025), TEMA Foundation (The Turkish Foundation for Combating Soil Erosion, for Reforestation and the Protection of Natural Habitats) (October 30, 2025), Öznur Benderlioğlu Doğangün (October 17, 2025), Bülent Şarlan (October 17, 2025), Muharrem Erkek (November 6, 2025), Muhammed Ali Arıkan et al. (November 6, 2025), the Chamber of Agricultural Engineers of TMMOB (December 15, 2025), and İDA Solidarity Association (December 26, 2025). The lawsuits were also notified to Türk Altın, which submitted petitions to intervene in support of the defendant administration in File No. 2025/1054 E. on December 16, 2025, File No. 2025/1070 E. on December 4, 2025, and File No. 2025/1073 E. on November 28, 2025.

i- Lawsuits related to mines (continued)

Lawsuits related to Çanakkale mine (continued)

In file no. 2025/1054 E. before the 1st Administrative Court of Çanakkale, the Court rejected the requests to intervene in support of the claimant submitted by Eskişehir Metropolitan Municipality and the Chamber of Agricultural Engineers (TMMOB), accepted the other claimant-side interventions, and accepted Türk Altın’s request to intervene in support of the defendant administration.

In file no. 2025/1070 E., the Court accepted the request to intervene in support of the claimant submitted by İDA Solidarity Association and also accepted Türk Altın’s intervention in support of the defendant administration.

In file no. 2025/1073 E., by decision dated November 28, 2025 and numbered 2025/1151 K., the Court accepted Türk Altın’s intervention in support of the defendant administration and dismissed the case on procedural grounds (lack of standing). The claimants filed an appeal on January 1, 2026, and the proceedings are ongoing before the 4th Chamber of the Council of State under file no. 2026/623 E.

On February 13, 2026, on-site inspections and expert examinations were conducted in files no. 2025/1070 E. and 2025/1054 E., and the issuance of the expert report is pending.

Separate lawsuits have also been filed in relation to the “Gold–Silver Mine Open Pit Operation” project planned by Türk Altın İşletmeleri A.Ş. in the Serçiler and Terziler villages of the Central district of Çanakkale province, challenging the Environmental Impact Assessment (“EIA”) positive decision issued by the Ministry of Environment, Urbanization and Climate Change. Eskişehir Metropolitan Municipality filed case no. 2025/1050 E., and the Aegean Environmental and Cultural Platform Association et al. filed case no. 2025/1053 E. before the 2nd Administrative Court of Çanakkale, seeking a stay of execution of the EIA decision without prior defense and the annulment of the administrative act subject to litigation. Petitions to intervene in support of the claimants in file no. 2025/1050 E. were submitted by Eskişehir Bilecik Chamber of Physicians (October 30, 2025) and Eskişehir Bar Association (December 24, 2025). The lawsuits have also been duly notified to the Group.

Türk Altın filed a petition to intervene in support of the defendant administration in file no. 2025/1053 E. on 14 January 2026, which was accepted by the Court. In file no. 2025/1050 E., by decision dated December 21, 2025 (2025/1333 K.), the Court rejected the petition to intervene in support of the claimant submitted by Eskişehir Bilecik Chamber of Physicians and dismissed the case on procedural grounds (lack of standing). The petition submitted by Eskişehir Bar Association was not decided as a final judgment had already been rendered against the principal claimant. Appeals were filed by the principal claimant on January 20, 2026 and by Eskişehir Bilecik Chamber of Physicians on January 22, 2026, and the proceedings are ongoing before the 4th Chamber of the Council of State under file no. 2026/664 E.

The expert reports prepared within the scope of the case files numbered 2025/1070 E. of the Çanakkale 1st Administrative Court, 2025/1054 E. of the Çanakkale 1st Administrative Court, and 2025/1053 E. of the Çanakkale 2nd Administrative Court have been duly served to the Company. Statements and objection petitions against the expert reports will be submitted within the prescribed legal period.

ii- Lawsuits regarding the Group’s subsidiary abroad

The Group has taken certain legal actions to re-establish control over its subsidiary, Koza Ltd., located in the United Kingdom, and to protect its investment in the said entity.

The Group is a defendant and counterclaimant in a case before the High Court of Justice of England and Wales (case number: HC-2016-002407). The case concerns the validity of the “A” class ordinary share in Koza Ltd. and Article 26 of Koza Ltd.’s Articles of Association. The proceedings were initiated in 2016, and no material developments have occurred in the case since 2021.

In addition, the Group has filed a separate petition before the High Court of Justice of England and Wales for the winding up of Koza Ltd. (case number: CR-2024-004856). Through this application, the Group requested the winding up of Koza Ltd. on “just and equitable” grounds pursuant to Section 122(1)(g) of the UK Insolvency Act 1986. The Group has also passed several special resolutions regarding the liquidation of Koza Ltd.’s operations.

iii- Liability lawsuits filed against former managers

As a result of the evaluations made by the CMB after the decision to appoint a trustee, the Group was instructed to file a liability lawsuit against previous board members for various reasons, and various liability lawsuits were filed against former managers on behalf of Ankara Commercial Courts, and the lawsuits are still pending. Lawsuits that may affect the activities of the Group are announced on the public disclosure platform in legal periods.

iv- Other legal processes

In the proceedings before the Ankara 24th High Criminal Court, case no. 2017/44 E., the Court resolved to sever the files of the former members of the Board of Directors whose trials could not proceed due to their failure to appear before the Court, to register such files under a new docket number, and to continue the proceedings thereunder. The Court further ruled that the injunction in the form of trustee appointment, as previously imposed, shall remain in effect unchanged until the conclusion of the proceedings. The severed file was registered under Ankara 24th High Criminal Court case no. 2020/20 E., and the proceedings continue under the relevant file. At the hearing held on April 9, 2026, the Court ruled for the continuation of the arrest warrants and detention orders issued in absentia against the defendants, pending their execution, and adjourned the next hearing to July 9, 2026.

v- Lawsuit regarding the TR Anadolu İnşaat ve Ticaret A.Ş.

The subject matter of the file numbered 2017/976 E. before the Istanbul 10th Commercial Court of First Instance consists of the allegation that the Share Sale and Transfer Agreement dated May 12, 2008 was executed by eliminating the will of the plaintiff, and that, through said agreement, the shares of Yaşam Televizyon Yayın Hizmetleri A.Ş. (the license holder and operator of Kanaltürk), Rektur Reklam Pazarlama ve Ticaret Ltd. Şti., and Gökcan Prodüksiyon Ticaret A.Ş. were compelled to be transferred to ATP İnşaat ve Ticaret A.Ş. for a consideration below one-third of their actual value, thereby giving rise to a claim for pecuniary damages. In the said action, the plaintiff requested that the pecuniary damage suffered be collected from the defendants Hamdi Akın İpek and ATP İnşaat ve Ticaret A.Ş. and paid to the plaintiff, calculated as an indefinite receivable over USD 100,000.00, together with the annual 6% (and increasing) USD interest applied by state banks to 1-year term USD deposit accounts, accruing as of May 12, 2008. Furthermore, the plaintiff filed an additional lawsuit with the file numbered 2022/441 E. before the Istanbul 4th Commercial Court of First Instance, repeating the same allegations and claims as those in the file numbered 2017/976 E. of the Istanbul 10th Commercial Court of First Instance.

In this additional lawsuit, the plaintiff requested that the pecuniary damages allegedly suffered, calculated as an indefinite receivable over USD 200,000.00, together with the annual 6% (and increasing) USD interest applied by state banks to 1-year term USD deposit accounts accruing as of May 12, 2008, be collected from the defendants Hamdi Akın İpek and ATP İnşaat ve Ticaret A.Ş. and paid to the plaintiff. The file numbered 2022/441 E. of the Istanbul 4th Commercial Court of First Instance was merged into the file numbered 2017/976 E. of the Istanbul 10th Commercial Court of First Instance. At the hearing held on July 5, 2023, the court ruled to reject both the principal action and the consolidated action on the grounds of expiration of the forfeiture period, with the right to appeal.

The plaintiff appealed the decision, and upon review conducted under file number 2023/2184 E. before the 12th Civil Chamber of the Istanbul Regional Court of Appeal, decision numbered 2025/1196 K. dated July 16, 2025, was issued. In this decision, it was held that the plaintiff's claims in both the principal and consolidated actions did not relate to the annulment of the agreement but instead to the compensation of damages allegedly incurred due to intimidation while remaining bound by the agreement; therefore, the claim was not subject to a forfeiture period, but rather to a statute of limitations determined according to the nature of the claim. Accordingly, the court found that the rejection of the action based on forfeiture was incorrect and ruled to set aside the decision dated July 5, 2023, numbered 2023/498 K., of the Istanbul 10th Commercial Court of First Instance, and to remand the case to the court of first instance for further examination. The decision was rendered unanimously and is final.

The proceedings continue before the Istanbul 10th Commercial Court of First Instance under file number 2025/548 E. At the hearing held on December 3, 2025, the court ruled for the dismissal of both the main lawsuit and the consolidated lawsuit. The reasoned decision has been issued; however, it has not yet been formally served to the parties.

13. Equity (continued)

The privileges given to shares representing the capital are as follows;

| Group | Registered / Bearer | Par value | Concession type (*) |
|-------|---------------------|-----------|---------------------|
| A | Registered | 48.510 | 3-4 |
| B | Bearer | 145.530 | 3 |
| C | Bearer | 194.040 | - |

(*) Concession type:

1. Dividend privilege
2. Voting privilege
3. Privilege in the election of the board of directors
4. Privilege in the selection of the supervisory board
5. Limitations on privileges about buy new shares, transfer etc.
6. Other privileges

There are no privileges for (A) type shares with registered and bearer type shares other than the privileges stated above, and a trustee was appointed to the Group pursuant to the decision of Ankara Criminal Court of Peace on October 26, 2015. Subsequently, the Group was transferred to the SDIF on September 22, 2016. For this reason, the privileges of (A) share groups cannot be used.

Share premiums represent the cash inflows generated by selling the shares at market prices. These premiums are accounted under equity and cannot be distributed. However, it can be used for future capital increases.

According to the Turkish Commercial Code, legal reserves consist of first and second legal reserves. The TCC stipulates that the first legal reserve is appropriated out of statutory profits at the rate of 5% per annum, until the total reserve reaches 20% of the Group's paid-in share capital. The second legal reserve is 10% of the distributed profit in excess of 5% of the paid-in share capital. According to the Turkish Commercial Code, as long as the legal reserves do not exceed 50% of the paid-in capital, they can only be used to offset the losses, it is not possible to use them in any other way.

Public companies make their dividend distributions according to the CMB's "Dividend Communiqué" numbered II 19.1, which entered into force as of February 1, 2014.

Companies distribute their profits within the framework of profit distribution policies to be determined by their general assemblies and in accordance with the provisions of the relevant legislation, by the decision of the general assembly. Within the scope of the said communiqué, a minimum distribution rate has not been determined. Companies pay dividends as specified in their articles of association or profit distribution policies. In addition, dividends can be paid in installments of equal or different amounts and dividend advances can be distributed over the profit in the financial statements.

Unless the reserves that should be set aside according to the TCC and the dividend determined for the shareholders in the articles of association or in the profit distribution policy are reserved; it cannot be decided to allocate other reserves, to transfer profits to the next year, and to distribute dividends to dividend owners, members of the board of directors, company employees and persons other than shareholders, and no dividends can be distributed to these persons unless the dividend determined for shareholders is paid in cash.

Regarding the share buy-back and share purchase and sale transactions initiated by the decision of the Türk Altın İşletmeleri A.Ş. Board of Directors, 75,000,000 of Türk Altın İşletmeleri A.Ş. shares and 13,856,558 of TR Anadolu Metal Madencilik İşletmeleri A.Ş. shares were bought back for a total of TL 5,447,563 thousand until March 31, 2026.

13. Equity (continued)

The Group's restricted reserves are as follows:

| | March 31, 2026 | December 31, 2025 |
|-------------------------------|------------------|-------------------|
| Restricted reserves | 2.942.269 | 2.942.269 |
| Reserves for withdrawn shares | 2.473.943 | 2.473.943 |
| Total | 5.416.212 | 5.416.212 |

According to the Turkish Commercial Code, legal reserves consist of first and second legal reserves. The TCC stipulates that the first legal reserve is appropriated out of statutory profits at the rate of 5% per annum, until the total reserve reaches 20% of the Group's paid-in share capital. The second legal reserve is 10% of the distributed profit in excess of 5% of the paid-in share capital. According to the Turkish Commercial Code, as long as the legal reserves do not exceed 50% of the paid-in capital, they can only be used to offset the losses, it is not possible to use them in any other way.

According to the Turkish Commercial Code, the Group allocates reserves for its own shares acquired in an amount that meets the acquisition value. These reserves can be dissolved in an amount that meets their acquisition value if the aforementioned shares are transferred or destroyed. In accordance with the legislation related to the revaluation fund, other funds in the liabilities can be dissolved if they are converted into capital and the reassessed assets are amortized or transferred.

In accordance with the temporary Article 37 added to the Tax Procedure Law by the Law No. 7571 published in the Official Gazette dated December 25, 2025, it has been added and announced that the financial statements for the 2025 accounting period and the 2026 and 2027 accounting periods, including the provisional tax periods related to this period, will not be subject to inflation adjustment, regardless of whether the conditions in Article 298 (repeated) are met or not. (for taxpayers subject to a special accounting period, as of the accounting periods ending in 2026, 2027 and 2028) Due to the use of different indices in the application of inflation accounting according to the Tax Procedure Law and the fact that inflation accounting was not applied in accordance with the Tax Procedure Law in 2025, differences have arisen between the amounts in the balance sheet prepared according to the Tax Procedure Law and the amounts in the financial statements prepared in accordance with IFRS/IAS regarding the items of "capital adjustment differences" and "restricted reserves separated from profit".

These differences are accounted in the "Retained Earnings or Losses" item in the TAS/IFRS financial statements, and these differences are given in detail below:

18. Income tax

Current income tax

Corporate tax is applied on taxable corporate income, which is calculated from the statutory accounting profit by adding back non-deductible expenses, dividend income from domestic companies, other exempt income and investment incentives utilized.

As of March 31, 2026, the effective corporate tax rate applied is 25% (December 31, 2025: 25%).

In Türkiye, advance tax is calculated and accrued on a three-month basis. The provisional tax rate to be calculated on corporate earnings during the taxation of 2025 corporate earnings as of the provisional tax periods is 25%. Losses can be carried forward for a maximum of 5 years to be deducted from taxable profits in future years. However, losses incurred cannot be deducted retroactively from profits in previous years.

Income Withholding Tax

In addition to corporate tax, income tax withholding must be calculated separately on dividends, excluding those distributed to full-fledged corporations and foreign companies' branches in Türkiye, which receive dividends in case of distribution and declare these dividends by including them in corporate income. As of December 22, 2024, the dividend withholding tax rate has been applied as 15% with Presidential Decree No. 9286 (December 31, 2025: 15%). Dividends that are not distributed but added to the capital are not subject to income tax withholding.

Corporate tax liabilities / (assets) recognized in the consolidated balance sheet as of March 31, 2026 and December 31, 2025 are as follows:

| | March 31, 2026 | December 31, 2025 |
|-------------------------------------|------------------|-------------------|
| Current tax expense | 1.427.076 | 773.557 |
| Prepaid taxes (-) | (69.158) | (622.499) |
| Current income tax liability | 1.357.918 | 151.058 |

Tax expense details recognized in the consolidated income statement as of March 31, 2026 and 2025 are as follows:

| | March 31, 2026 | March 31, 2025 |
|-------------------------------------|--------------------|----------------|
| Current tax expense | (1.427.076) | (51.406) |
| Deferred tax expense | (216.647) | 103.084 |
| Total tax expense / (income) | (1.643.723) | 51.678 |

According to Article 37 of the Temporary Provisions added to the Tax Procedure Law by Law No. 7571 published in the Official Gazette dated December 25, 2025, it has been announced that financial statements prepared within the scope of the Tax Procedure Law will not be subject to inflation adjustment in the 2025 accounting period, regardless of whether the conditions for inflation adjustment are met or not.

18. Income tax (continued)

Deferred taxes

The Group recognizes deferred tax assets and liabilities for temporary differences arising from differences between its tax base legal financial statements and its financial statements prepared in accordance with TMS / TFRS. The aforementioned differences are generally due to the fact that some income and expense items are included in different periods in the financial statements subject to tax and the financial statements prepared in accordance with TMS / TFRS, and these differences are stated below. In the calculation of deferred tax assets and liabilities, the tax rates expected to be applied in the periods when assets are converted into income or debts are paid are taken into account.

The breakdown of cumulative temporary differences and the resulting deferred tax assets/ (liabilities) at March 31, 2026 and December 31, 2025 are as follows:

19. Earnings per share

Earnings per share is calculated by dividing the current year net profit of the parent company by the weighted average number of shares traded throughout the year. Companies in Türkiye have right to increase its capital through the distribution of bonus shares to be met from the re-valuation fund or accumulated profits. During the calculation of earnings per share, these increases are accepted as shares distributed as dividends. Dividend distributions added to the capital are also evaluated in the same way. Therefore, while calculating the average number of shares, it is assumed that such shares are in circulation throughout the year. For this reason, the weighted average of the number of shares used in calculating the earnings per share is determined by considering the retroactive effects.

The earnings per share of the Group as of March 31, 2026 and 2025 are as follows:

| | January 1 – March 31, 2025 | January 1 – March 31, 2026 |
|---|-------------------------------|-------------------------------|
| Net profit attributable to the owners of the Group | 574.080 | 333.610 |
| Weighted average number of share certificates (*) | 38.794.143.442 | 38.798.409.859 |
| Earnings per 100 shares (TL) | 1,480 | 0,860 |
| Total comprehensive income attributable to the owners of the Group | 596.296 | 315.380 |
| Earnings per 100 shares from total comprehensive income (TL) | 1,537 | 0,813 |

(*) If the number of ordinary or potential ordinary shares outstanding increases as a result of capitalization, bonus issue or share split, or decreases as a result of a share merger, the calculation of basic and diluted earnings per share for all periods presented is adjusted retrospectively. If these changes occur after the reporting period but before the financial statements are approved for issue, the calculations per share in the financial statements of the current period and prior periods presented are based on the number of new shares outstanding. It is disclosed to the public that the calculations per share reflect the changes in the number of shares. In addition, for all periods presented, basic and diluted earnings per share figures are adjusted for the effects of retrospectively corrected errors and changes in accounting policies. The average number of shares in the current period was determined by calculating on a daily basis according to the repurchased shares.

21. Nature and level of risks arising from financial instruments

The Group’s main financial instruments consist of cash, short-term deposits, currency protected deposits and funds. The main purpose of financial instruments is to finance the activities of the Group. Apart from these, the Group has financial instruments such as trade receivables and payables that arise as a result of its activities.

The Group is exposed to market risk, which consists of currency, cash flow and interest rate risks, capital risk, credit risk and liquidity risk, due to operations. Risk management policy is to focus on unexpected changes in the financial markets.

The management policy of financial risks should be made by the Group’s senior management and commercial and financial affairs department in line with the policies and strategies approved by the Board of Directors. The Board of Directors should prepare general principles and policies for the management of currency, interest and capital risks, and closely monitor financial and operational risks (especially arising from fluctuations in gold prices). The Group does not have an Early Risk Detection Committee.

The purpose that the Group should set to manage financial risks can be summarized as follows:

- Ensuring the continuity of the cash flow obtained from the activities and main assets of the Group, taking into account the exchange rate and interest risks,
- Keeping a sufficient amount of credit resources available to be used effectively and efficiently under the most appropriate conditions in terms of type and maturity,
- Keeping the risks arising from the counterparty at a minimum level and following them effectively.

The main risks arising from the financial instruments of the Group are interest rate risk, foreign currency risk, credit risk and liquidity risk. The policies of the management regarding managing these risks are summarized below.

a) Credit risk:

The risk of financial loss of the Group due to the failure of one of the parties to the financial instrument to fulfill its contractual obligation is defined as credit risk. Financial instruments of the Group that may cause a significant concentration of credit risk mainly consist of cash and cash equivalents and trade receivables. The maximum credit risk that the Group may be exposed to is up to the amounts reflected in the financial statements.

The Group holds cash and cash equivalents as well as financial investments in various financial institutions.

The Group realizes the sale of the doré gold bars it produces on a consignment basis through the relevant bank, to be sold to the Central Bank of the Republic of Türkiye, which holds the right of first refusal and realizes the sale of silver bars to a domestic refinery again on consignment. Due to the fact that the sales are made on demand and the customer is corporate, the Group considers that there is no significant risk of receivables.

b) Market risk

Due to operations, the Group is exposed to financial risks related to changes in exchange rates and interest rates. Market risks encountered by the Group are measured on the basis of sensitivity analysis. In the current year, there isn't any change in the market risk that the Group is exposed to, or the method of handling the encountered risks or the method used to measure these risks, compared to the previous year. Transactions in foreign currency cause exchange risk. The Group controls this risk through a natural precaution that occurs by netting foreign currency assets and liabilities.

The distribution of the monetary and non-monetary assets and monetary and non-monetary liabilities of the Group in foreign currency as of the date of financial position is as follows:

Price risk

The most important operational risk of the Group is the gold price risk.

The operational profitability of the Group and the cash flows it provides from its operations are affected by the changes in gold and silver prices in the markets. If the gold prices decrease comparing under the cash-based operational production costs of the Group and continue in this way for a certain period, the operational profitability of the Group may decrease.

The Group does not expect any change in gold prices to drop significantly in the near future. Accordingly, the Group has not used any derivative instruments to hedge the risk of falling gold prices and has not made a similar agreement.

c) Capital risk management:

While managing the capital, the Group's objectives are to maintain the most appropriate capital structure in order to benefit its shareholders and reduce the cost of capital and to ensure the continuity of the Group's activities.

In order to return capital to shareholders, the Group could maintain or reorganize its capital structure, issue new shares, and sell assets to reduce borrowing.

The Group uses the net financial debt / equity ratio to monitor the capital structure. Net debt is calculated by deducting cash and cash equivalents from the total debt amount (including loans and other payables to related parties as shown in the balance sheet). Group management should follow the net debt / equity ratio regularly and update it when necessary.

22. Financial instruments (fair value disclosures and disclosures within the framework of hedge accounting)

Fair value of the financial instruments

The Group classifies the fair value measurements of the financial instruments measured at their fair values in the financial statements according to the source of the inputs of each financial instrument class, using a three-level hierarchy as follows.

- First level: Quotation prices (unadjusted prices) in active markets for identical assets and liabilities that the entity can reach at the measurement date.
- Second level: These are directly or indirectly observable inputs for the asset or liability and other than quoted prices within Level 1.
- Third level: These are unobservable inputs to the asset or liability.

Level classifications of financial assets measured at their fair values:

| March 31, 2026 | Level 1 | Level 2 | Level 3 | Total |

23. Subsequent events after balance sheet date

- Following the hearing held on April 9, 2026 in relation to the proceedings before the Ankara 24th High Criminal Court, case no. 2020/20 E., the Ankara 24th High Criminal Court resolved that the arrest warrants and detention orders issued in absentia against the defendants shall remain in effect pending their execution, and adjourned the hearing to July 9, 2026.

- The shares held by Hamdi Akın İpek and Cafer Tekin İpek, shareholders of Konaklı Metal Madencilik Sanayi Ticaret A.Ş., in which the Group holds a 71.19% ownership interest, as well as the shares held by Hamdi Akın İpek, Cafer Tekin İpek and Pelin Zenginler, shareholders of ATP Koza Gıda Tarım Hayvancılık Sanayi ve Ticaret A.Ş., in which the Group holds an indirect ownership interest, were subjected to enforcement attachment proceedings initiated by Türk Altın Holding A.Ş. under the execution file numbered 2024/6452 of the Ankara 1st General Enforcement Office. In the tenders conducted by the Enforcement Office for the sale of the related shares, Türk Altın Holding A.Ş. participated through credit bidding (set-off against receivables). As a result of the tenders, the shares were awarded to Türk Altın Holding A.Ş. and the aforementioned members of the İpek family ceased to be shareholders of ATP Koza Gıda Tarım Hayvancılık Sanayi ve Ticaret A.Ş. and Konaklı Metal Madencilik Sanayi Ticaret A.Ş. Following completion of the tender processes, the required notifications were submitted to the Trade Registry Directorate and the related share transfers were recorded in the respective share ledgers of the companies.

- The Group’s subsidiary Türk Altın İşletmeleri A.Ş. participated in the tenders held between March 25, 2026 and April 10, 2026 for the licenses included in the 317th Group tender announcement published by the General Directorate of Mining and Petroleum Affairs (MAPEG) on February 7, 2026. As a result of the auctions conducted under an open bidding procedure, 13 Category IV exploration licenses were acquired for a total consideration of TL 482,725,000.

- In the legal proceedings ongoing in the United States regarding the ownership of the yachts named M/Y İPEK, ANGEL’S ONE and ANGEL’S THREE, with an aggregate current value of approximately EUR 10,000,000, held under ATP Marin Inc., in which Türk Altın Holding A.Ş., one of the Company’s shareholders, holds a 97% ownership interest, the court ruled in favor of ATP Marin Inc. in the lawsuit filed by ATP Marin Inc. alleging that the transfer transactions of the aforementioned yachts to Sentinel Global Partners USA Inc. were collusive transactions. Accordingly, the transfer transactions relating to the yachts were annulled. Pursuant to the court decision, procedures have been initiated to re-establish the ownership of the yachts in the name of ATP Marin Inc., and the registration procedures before the Turkish Ship Registry will be completed.

- It has been resolved to amend Article 3 of the Company’s Articles of Association titled “Purpose and Scope”; and to add Article 19 titled “Board of Directors Meetings Held Electronically”, Article 20 titled “Issuance of Capital Market Instruments”, Article 21 titled “Transfer of Shares or Share Certificates”, Article 22 titled “Merger and Demerger Provisions”, Article 23 titled “Amendments to the Articles of Association”, and Article 24 titled “Type of Share Certificates” to the Articles of Association. In this context, the amendments to the Company’s Articles of Association have been approved. It has further been resolved to make the necessary applications before the Capital Markets Board of Türkiye and the Ministry of Trade of the Republic of Türkiye in order to obtain the required approvals and permissions regarding the aforementioned amendments, and, following the receipt of the relevant approvals, to submit the amendments to the Articles of Association for the approval of the shareholders at the first General Assembly meeting to be held thereafter.
