**REPORT ON REVIEW OF CONDENSED CONSOLIDATED INTERIM  
FINANCIAL INFORMATION**

**To the General Assembly of Coca Cola İçecek A.Ş.**

*Introduction*

We have reviewed the accompanying condensed consolidated statement of financial position of Coca Cola İçecek A.Ş. (“the Company”) and its subsidiaries (together will be referred as “the Group”) as of 30 June 2019 and the related condensed consolidated statements of profit or loss and other comprehensive income, changes in equity and cash flows for the six-month period then ended, and a summary of significant accounting policies and other explanatory notes. Group management is responsible for the preparation and fair presentation of this consolidated interim financial information in accordance with Turkish Accounting Standards 34 “Interim Financial Reporting” Standard. Our responsibility is to express a conclusion on this consolidated interim financial information based on our review.

*Scope of Review*

We conducted our review in accordance with Independent Auditing Standard on Review Engagements 2410, “Review of Interim Financial Information Performed by the Independent Auditor of the Entity”. A review of consolidated interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Independent Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

*Conclusion*

Based on our review, nothing has come to our attention that causes us to believe that the accompanying consolidated interim financial information is not prepared, in all material respects, in accordance with TAS 34 “Interim Financial Reporting”.

#### Economic Conditions and Risk Factors of Subsidiaries and Joint Ventures

The countries, in which certain subsidiaries and joint ventures operate, have undergone substantial political and economic changes in recent years. Uncertainties regarding the political, legal, tax and/or regulatory environment, including the potential for adverse changes in any of these factors, could significantly affect the subsidiaries' and joint ventures ability to operate commercially. Group Management closely monitors uncertainties and adverse changes to minimize the probable effects of such changes.

In this context, Risk Detection Committee; which was established under the arrangements, terms and principles of Turkish Commercial Code, Capital Market Legislation and CMB's "Corporate Governance Principles" assess, manage and report Group risks. Some of the Group priority risks are defined as political instability and security, cyber security, exchange rate volatility, sustainable talent capability, corporate reputation, water and environmental impact of packaging, changing consumer preferences, discriminatory tax and regulations, channel mix shift, economic slowdown, law and order and industrial relations. Group does not expect any adverse effect on the business related to any significant regulatory changes and/or legal arrangements by the authorities. All compliance efforts are in place and there is no legal dispute that may adversely affect the business.

#### Seasonality of Operations

Sparkling beverages consumption is seasonal, typically resulting in higher demand during the summer season and accordingly the seasonality effects are reflected in the figures. Therefore, the results of operations for the six months ended June 30, 2019 do not automatically constitute an indicator for the results to be expected for the overall fiscal year.

#### Average Number of Employees

Category-based average number of employees working during the period is as follows (Joint ventures are considered with full numbers for June 30, 2019 and 2018).

	June 30, 2019	June 30, 2018
Blue-collar	3.356	3.325
White-collar	4.933	4.985
<b>Average number of employees</b>	<b>8.289</b>	<b>8.310</b>

#### 2. BASIS OF CONSOLIDATED FINANCIAL STATEMENT PRESENTATION

##### Basis of Preparation

CCI and its subsidiaries that are incorporated in Turkey maintain their books of account and prepare their statutory financial statements in Turkish Lira ("TL") in accordance with the regulations on accounting and reporting framework and accounting standards promulgated by the CMB, Turkish Commercial Code ("TCC") and Tax Legislation and the Uniform Chart of Accounts which is issued by the Ministry of Finance. The subsidiaries incorporated outside of Turkey maintain their books of account and prepare their statutory financial statements in accordance with the regulations of the countries in which they operate.

The condensed consolidated interim financial statements have been prepared from the statutory financial statements of Group's subsidiaries' and joint ventures and presented in TL in accordance with CMB Accounting Standards with certain adjustments and reclassifications for the purpose of fair presentation. Such adjustments are primarily related to application of consolidation accounting, accounting for business combinations, accounting for deferred taxes on temporary differences, accounting for employee termination benefits on an actuarial basis and accruals for various expenses. Except for the financial assets carried from their fair values and assets and liabilities included in Business Combination application, condensed consolidated financial statements are prepared on a historical cost basis.

### **Notes to Interim Condensed Consolidated Financial Statements as at June 30, 2019 (Currency - Thousands of Turkish Lira unless otherwise indicated (TL))**

#### **2. BASIS OF CONSOLIDATED FINANCIAL STATEMENT PRESENTATION (continued)**

The condensed consolidated interim financial statements and disclosures have been prepared in accordance with the communiqué numbered II-14,1 “Communiqué on the Principles of Financial Reporting in Capital Markets” (“the Communiqué”) announced by the CMB (hereinafter will be referred to as “the CMB Accounting Standards”) on June 13, 2013 which is published on Official Gazette numbered 28676. In addition, the condensed interim consolidated financial statements are presented in accordance with the specified format in “IFRS Taxonomy Announcement” , issued on 15 April 2019 by the POA, and “the Financial Statements Examples and Guidelines for Use” ,which is published by the Capital Markets Board of Turkey.

In accordance with article 5 of the CMB Accounting Standards, companies should apply Turkish Financial Reporting Standards (“IFRS”) and interpretations regarding these standards as adopted by the Public Oversight Accounting and Auditing Standards Authority (“POA”).

The condensed consolidated interim financial statements are based on the statutory records, with adjustments and reclassifications for the purpose of fair presentation in accordance with the Accounting Standards released by POA and are presented in TL.

Interim condensed consolidated financial statements do not include all the information and disclosures required in the annual financial statements. Accordingly, these condensed interim consolidated financial statements should be read in conjunction with the annual consolidated financial statements for the year ended December 31, 2018.

#### **Summary of Significant Accounting Policies and Changes**

The interim condensed consolidated financial statements of the Group for the six months ended June 30, 2019 have been prepared in accordance with the accounting policies used in the preparation of annual consolidated financial statements for the year ended December 31, 2018, except for the adoption of new and amended standards.

#### **Comparative Information and Restatement on Prior Period Financial Statements**

##### IFRS 15 “Revenue from Contracts with Customers”

In the scope of IFRS 15 “Revenue from Contracts with Customers”, Group accounts consideration payables to customers as reduction in revenue rather than selling, distribution and marketing expenses, since related expenses are undertaken by customers.

In this context, as of June 30, 2018, total cash concession amounting to TL 73.264 was reflected to “Sales Discounts” by reclassing from “Selling, Distribution and Marketing Expenses” for the aim of comparable presentation with current year consolidated financial statements.

##### IFRS 16 “Leases”

IFRS 16 provides a comprehensive model for the identification of lease arrangements and their treatment in the financial statements for both lessors and lessees. IFRS 16 supersedes the current lease guidance including TAS 17 Leases and the related Interpretations for accounting periods beginning on or after 1 January 2019.

The group leases various offices, warehouses, equipment and cars. Rental contracts are typically made for more than 1 year and may have extension option. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. The lease agreements do not impose any covenants, but leased assets may not be used as security for borrowing purposes.

The date of initial application of IFRS 16 for the Group is 1 January 2019 retrospectively taking into account the cumulative effect in the financial statements. Under this scope starting with January 1, 2017, leases are recognised as a right-of-use asset and a corresponding liability at the date at which the leased asset is available for use by the group. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. The right-of-use asset is depreciated over the shorter of the asset’s useful life and the lease term on a straight-line basis.

### Notes to Interim Condensed Consolidated Financial Statements as at June 30, 2019 (Currency - Thousands of Turkish Lira unless otherwise indicated (TL))

#### 2. BASIS OF CONSOLIDATED FINANCIAL STATEMENT PRESENTATION (continued)

Assets and liabilities arising from a lease are initially measured on a present value basis. Lease liabilities include the net present value of the following lease payments:

- fixed payments
- variable lease payment that are based on an index or a rate
- amounts expected to be payable by the lessee under residual value guarantees
- the exercise price of a purchase option if the lessee is reasonably certain to exercise that option, and
- payments of penalties for terminating the lease, if the lease term reflects the lessee exercising that option.

The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be determined, the lessee's incremental borrowing rate is used, being the rate that the lessee would have to pay to borrow the funds necessary to obtain an asset of similar value in a similar economic environment with similar terms and conditions.

Right-of-use assets are measured at cost comprising the following:

- the amount of the initial measurement of lease liability
- any lease payments made at or before the commencement date
- any initial direct costs, and
- restoration costs.

On adoption of TFRS 16, the group recognised lease liabilities in relation to leases which had previously been classified as 'operating leases' under the principles of TAS 17 Leases. These liabilities were measured at the present value of the remaining lease payments, discounted using the lessee's incremental borrowing rate as of 1 January 2017.

At December 31, 2018, 2017 and June 30, 2019, minimum and maximum incremental borrowing rates applied to the lease liabilities are as follows:

	June 30, 2019	December 31, 2018	December 31, 2017
USD	4,37% - 8,00%	4,37% - 8,00%	4,41% - 8,00%
EUR	0,81% - 6,98%	0,81% - 6,98%	0,81% - 0,85%
TRL	10,50% - 25,25%	10,50% - 25,00%	13,20%
JOD	7,25% - 7,75%	7,25%	-
AZN	15,00%	15,00%	15,00%
PKR	6,40% - 10,87%	6,40% - 10,00%	6,40%
IQD	5,70%	5,70%	5,70%

##### **TFRS 16 Leases**

The Group adopted TFRS 16 “Leases” retrospectively. For the contracts entered into before 1 January 2017, the Group determined whether the arrangement was or contained a lease based on the assessment whether:

- a) the fulfilment of the arrangement was dependent on the use of specific asset or assets; and
- b) the arrangement has conveyed a right of use the asset

In preparation for the first-time application of TFRS 16, the Group has carried out an implementation project and as of January 1, 2017 started to measure lease liabilities at the present value of the remaining lease payments, discounted at the Group’s incremental borrowing rate.

The right-of-use assets at an amount equal to the lease liability, adjusted by the amount of any prepaid or accrued lease payments. Group decided to use the following practical expedients;

- Group applied a single discount rate to a portfolio of leases with similar characteristics
- Used hindsight when determining the lease term when the contract contains options to renew or terminate the lease.

##### **Leases**

At inception of a contract, the Group assesses whether a contract is, or contains a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, The Group assess whether:

- a) the contract involved the use of an identified asset – this may be specified explicitly or implicitly
- b) the asset should be physically distinct or represent substantially all the capacity of a physically distinct asset. If the supplier has a substantive substitution right, the asset is not identified;
- c) the Group has the right to obtain substantially all the economic benefits from the use of an asset throughout the period of use; and
- d) the Group has the right to direct use of the asset. The Group has the right when it has the decision-making rights that are most relevant to changing the how and for what purpose the asset is used is predetermined, the Group has the right the use of asset if either:
  - i. the Group has the right to operate the asset or;
  - ii. the Group designed the asset in a way that predetermines how and for what purpose it will be used.

##### **Right of use asset**

The Group recognizes a right-of use asset and a lease liability at the lease commencement date.

The right of use asset is initially recognized at cost comprising of:

- a) amount of the initial measurement of the lease liability;
- b) any initial direct costs incurred by the Group; and

The Group re-measure the right of use asset:

- a) after netting-off depreciation and reducing impairment losses from right of use asset,
- b) adjusted for certain re-measurements of the lease liability recognized at the present value

The Group applied TAS16 “Property, Plant and Equipment” to calculate the right of use asset depreciation.

### **2. BASIS OF CONSOLIDATED FINANCIAL STATEMENT PRESENTATION (continued)**

#### ***Lease Liability***

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date. Lease liabilities are discounted using the Group' incremental borrowing rate.

Lease payment that included measurement of the lease obligation at the effective date of leasing consist of payments below that will be made for right of asset during leasing period of underlying asset and has not been paid at the date effective date of leasing.

Lease payments included in the measurement of the lease liability comprise the following:

- a) fixed payments, including in-substance fixed payments;
- b) variable lease payments that depend on an index or a rate, initially measured using the index or rate as the commencement date;

After initial recognition, the lease liability is measured:

- a) increasing the carrying amount to reflect interest on lease liability;
- b) reducing the carrying amount to reflect the lease payments made; and
- c) remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments.

The Group reassesses the lease liabilities starting from the commencement date under consideration of changes in the lease contracts. The Group recognizes the amount of the re-measurement of lease liability as an adjustment to the right of use asset. Where there is a change in lease terms, the Group reflects the effects on future periods of the contract. In such case, the Group remeasures the lease liabilities by discounting the revised lease payments using an unchanged discount rate.

The Group accounts for a lease modification as a separate lease if both:

- a) the modification increases the scope of the lease by adding the right to use one or more underlying assets and
- b) consideration for the lease increases by an amount commensurate with the stand-alone price for the increase in scope and any appropriate adjustments to that stand-alone price to reflect the circumstances of the contract.

#### ***Finance leases***

The main differences between TFRS 16 and TAS 17 with respect to assets formerly held under a finance lease is the measurement of the residual value guarantees provided by the lessee to the lessor. TFRS 16 requires that the Group recognizes as part of its lease liability only the amount expected to be payable under a residual value guarantee, rather than the maximum amount guaranteed as required by TAS 17. On initial application the Group will present equipment previously included in property, plant and equipment within the line item for right-of-use assets and the lease liability, previously presented within borrowing, will be presented in a separate line for lease liabilities.

Based on an analysis of the finance leases as at June 30, 2019 and based on the facts and circumstances that exist at that date, there isn't any material impact on the Group's consolidated financial statements.

Property leased by the Group includes coolers, vehicles, buildings, machinery and equipment. As of June 30, 2019, net book value of assets under finance leases included in property, plant and equipment is amounting to TL 843 (December 31, 2018 - TL 936).

#### ***Amendments to TAS 28 Long-term Interests in Associates and Joint Ventures***

This amendment clarifies that an entity applies TFRS 9 Financial Instruments to long-term interests in an associate or joint venture that form part of the net investment in the associate or joint venture but to which the equity method is not applied.

#### ***TFRS Interpretation 23 Uncertainty over Income Tax Treatments***

This interpretation addresses the determination of taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates, when there is uncertainty over income tax treatments under TAS 12.

#### **2. BASIS OF CONSOLIDATED FINANCIAL STATEMENT PRESENTATION (continued)**

##### ***Amendments to TAS 19 Employee Benefits Plan Amendment, Curtailment or Settlement***

The amendments clarify that the past service cost (or of the gain or loss on settlement) is calculated by measuring the defined benefit liability (asset) using updated assumptions and comparing benefits offered and plan assets before and after the plan amendment (or curtailment or settlement) but ignoring the effect of the asset ceiling (that may arise when the defined benefit plan is in a surplus position).

##### **b) New and revised TFRSs in issue but not yet effective**

The Group has not yet adopted the following standards and amendments and interpretations to the existing standards:

TFRS 17	Insurance Contracts
Amendments to TFRS 3	Business Combinations
Amendments to TAS 1	Presentation of Financial Statements
Amendments to TAS 8	Accounting Policies, Changes in Accounting Estimates and Errors

##### **Amendments to TFRS 3 Business Combinations**

The definition of “business” is important because the accounting for the acquisition of an activity and asset group varies depending on whether the group is a business or only an asset group. The definition of “business” in TFRS 3 Business Combinations standard has been amended. With this change:

- By confirming that a business should include inputs and a process; clarified that the process should be essential and that the process and inputs should contribute significantly to the creation of outputs.
- The definition of a business has been simplified by focusing on the definition of goods and services offered to customers and other income from ordinary activities.
- An optional test has been added to facilitate the process of deciding whether a company acquired a business or a group of assets.

##### **Amendments to TAS 1 Presentation of Financial Statements and TAS 8 Accounting Policies, Changes in Accounting Estimates and Errors - Definition of Material**

The amendments in Definition of Material (Amendments to TAS 1 and TAS 8) clarify the definition of ‘material’ and align the definition used in the Conceptual Framework and the standards.

##### ***Annual Improvements to TFRS Standards 2015–2017 Cycle***

*Annual Improvements to TFRS Standards 2015–2017 Cycle include amendments to TFRS 3 Business Combinations and TFRS 11 Joint Arrangements in when a party that participates in, but does not have joint control of, TAS 12 Income Taxes; income tax consequences of dividends in profit or loss, and TAS 23 Borrowing Costs in capitalized borrowing costs.*

Other than TFRS 16, these standards, amendments and improvements have no material impact on the consolidated financial position and performance of the Group.

##### **Estimation Uncertainty**

For the condensed consolidated interim financial statements, as of June 30, 2019, Group management has to make key assumptions concerning the future and other key sources of estimation uncertainty on the balance sheet date that have significant risks of causing a material adjustment to the carrying amounts of assets and liabilities in the preparation of condensed consolidated financial statements. Actual results can be different from estimations. These estimations are reviewed at each balance sheet date; required corrections are made and reflected in the results of operations of the related period. The key assumptions concerning the future and other key resources of estimation at the balance sheet date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year and the significant judgments (apart from those involving estimations) with the most significant effect on amounts recognized in the financial statements are consistent with the assumptions and estimations made for the year ended December 31, 2018, except for the necessary considerations made for income taxes.

### Functional and Presentation Currency

The majority of the consolidated foreign subsidiaries and joint venture are regarded as foreign operations since they are financially, economically and organizationally autonomous. In accordance with "TAS 21 The Effects of Changes in Foreign Exchange Rates", there has been a change in the functional currency of the foreign subsidiaries and joint venture from US Dollars ("USD") to the foreign subsidiaries' and joint ventures' local currencies effective from January 1, 2017. This was done considering the multinational structure of foreign operations and realization of most of their operations, by assessing the currency of the primary economic environment of foreign operations, the currency that influences sales prices for goods and services, the currency in which receipts from operating activities are usually retained and the currency that mainly influences costs and other expenses for providing goods and services. The group has applied the change in functional currency prospectively, in accordance with the requirements of TFRS and the relevant Accounting Standards. All assets and liabilities are converted into the new functional currency using the exchange rate at the date of the change. The resulting translated amounts for non-monetary items are treated as their historical cost

Functional and presentation currency of the Company is Turkish Lira (TL).

##### Right of Use Asset

The Group applied TFRS 16 "Leases" retrospectively and recognizes a right-of use asset and a lease liability in financial statements at the lease commencement date.

The right of use asset is initially recognized at cost comprising of:

- amount of the initial measurement of the lease liability;
- any initial direct costs incurred by the Group; and

The Group re-measure the right of use asset:

- after netting-off depreciation and reducing impairment losses from right of use asset,
- adjusted for certain re-measurements of the lease liability recognized at the present value

The Group applied TAS16 "Property, Plant and Equipment" to calculate the right of use asset depreciation.

For the six months ended June 30, 2019 and 2018, balances and depreciation and amortization expenses of right of use assets are as follows:

#### 15. PROVISIONS, CONTINGENT ASSETS and LIABILITIES (continued)

##### Tax and Legal Matters

Legislation and regulations regarding taxation and foreign currency transactions in most of the territories in which the Group operates out of Turkey continue to evolve. The various legislation and regulations are not always clearly written, and the interpretation related with the implementation of these regulations is subject to the opinions of the local, regional and national tax authorities, the Central Bank and Ministry of Finance. Tax declarations, together with other legal compliance areas are subject to review and investigation by a number of authorities, who are enabled by law to impose significant fines, penalties and interest charges. These facts create tax risks in the territories in which the Group operates substantially more so than typically found in countries with more developed tax systems.

As per the change in governing law in Pakistan, "Capacity Tax" was started to be applied as of July 9, 2013, replacing "Sales and Excise Tax". CCBPL fulfilled all the obligations as per the new law and change in regulations.

As of May 2014, "Capacity Tax" application was cancelled by the constitutional court and the law has been reverted to "Sales and Excise Tax". After this withdrawal, CCBPL fulfilled all the obligations again according to "Sales and Excise Tax" system.

After the withdrawal, Federal tax office in Pakistan requested PKR 3.505 million (equivalent to USD 21,4 million) additional tax payment from CCBPL, by arguing that "Sales and Excise Tax" should be applied retrospectively by considering the period before the cancellation of "Capacity Tax" application. Company Management objected and litigated this request, since withdrawal decisions of constitutional court could not be applied retrospectively in principle. In the opinion of Management, the outcome of the litigation will be favourable (December 31, 2018 - PKR 3.505 million, equivalent to USD 25,3 million).

#### 16. COMMITMENTS

## 22. TAX RELATED ASSETS AND LIABILITIES

### General information

The Group is subject to taxation in accordance with the tax regulations and the legislation effective in the countries in which the Group companies operate. In Turkey, the tax legislation does not permit a parent company and its subsidiaries to file a consolidated tax return. Therefore, provision for taxes, as reflected in the consolidated financial statements, has been calculated on a separate-entity basis.

In Turkey, corporate tax rate is 22% (December 31, 2018 - 22%). In accordance with the regulation numbered 7061, published in Official Gazette on 5 December 2017, corporate tax rate for the years 2018, 2019 and 2020 has increased from 20% to 22%. Therefore, deferred tax assets and liabilities as of 31 December 2018 are calculated with 22% tax rate for the temporary differences which will be realized in 2018, 2019 and 2020, and with 20% tax for those which will be realized after 2021 and onwards.

Corporate tax returns are required to be filed by the twenty-fifth day of the fourth month following the balance sheet date and taxes must be paid in full by the end of the fourth month. The tax legislation provides for a provisional tax of 22% (2018 - 22%) to be calculated and paid based on earnings generated for each quarter. The amounts thus calculated and paid are offset against the final corporate tax liability for the year. Corporate tax losses can be carried forward for a maximum period of 5 years following the year in which the losses were incurred. The tax authorities can inspect tax returns and the related accounting records for a retrospective maximum period of 5 years.

Different corporate tax rates of foreign subsidiaries are as follows:

	June 30, 2019	December 31, 2018
Kazakhstan	20%	20%
Azerbaijan	20%	20%
Kyrgyzstan	10%	10%
Turkmenistan	8%	8%
Tajikistan	13%	13%
Jordan	16%	14%
Iraq	15%	15%
Pakistan	29%	29%

The list of temporary differences and the resulting deferred tax liabilities, as of June 30, 2019, and December 31, 2018 using the prevailing effective statutory tax rate is as follows:

	June 30, 2019		December 31, 2018

#### 25. NATURE AND LEVEL OF RISKS ARISING FROM FINANCIAL INSTRUMENTS

The Group's principal financial instruments are comprised of bank borrowings, bond issues, cash and short-term deposits. The main purpose of these financial instruments is to raise financing for the Group's operations. The Group has various other financial instruments such as trade debtors and trade creditors, which arise directly from its operations.

The main risks arising from the Group's financial instruments are interest rate risk, liquidity risk, foreign currency risk, and credit risk. The Group management reviews and agrees policies for managing each of these risks which are summarized below. The Group also monitors the market price risk arising from all financial instruments.

##### (a) Capital Management

The primary objective of the Group's capital management is to ensure that it maintains a strong credit rating and healthy capital ratio in order to support its business and maximize shareholder value.

The Group manages its capital structure and adjusts it in light of changes in economic conditions. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders or return capital to shareholders and may decide on issue of new shares or sell assets to decrease net financial debt.

As of June 30, 2019, and December 31, 2018 debt to equity ratio, obtained by dividing the total net debt to share capital is as follows:

Net debt is the financial borrowings, lease and financial lease payables less cash and cash equivalents and short-term financial assets.

	June 30, 2019	December 31, 2018
Borrowings	5.255.006	5.104.285
Less: Cash and cash equivalents and short-term financial assets	(1.931.513)	(2.310.897)
<b>Net debt</b>	<b>3.323.493</b>	<b>2.793.388</b>
Total share capital	254.371	254.371
<b>Net debt / Total equity ratio (%)</b>	<b>13,07</b>	<b>10,98</b>

##### (b) Interest Rate Risk

The Group is exposed to interest rate risk through the impact of rate changes on interest bearing assets and liabilities. The Group manages interest rate risk by balancing the interest rate of assets and liabilities or derivative financial instruments.

Certain parts of the interest rates related to borrowings are based on market interest rates; therefore, the Group is exposed to interest rate fluctuations on domestic and international markets. The Group's exposure to market risk for changes in interest rates relates primarily to the Group's debt obligations.

As of June 30, 2019, if variable interest rate on the Group's borrowings would have been 100 basis points higher / lower with all other variables held constant, then profit / (loss) before tax and non-controlling interest for September 30, 2019, which is the following reporting period would be:

	Effect on Profit Before Tax and Non-Controlling Interest	
	June 30, 2019	June 30, 2018
Increase / decrease of 1% interest in USD denominated borrowing interest rate	359	284
Increase / decrease of 1% interest in Euro denominated borrowing interest rate	1.751	2.097
Increase / decrease of 1% interest in PKR denominated borrowing interest rate	316	324

<b>Financial instruments with floating interest rate</b>		
Financial liabilities related to bank borrowings (Note 7)	990.095	1.096.496

**(c) Foreign Currency Risk**

The Group is exposed to exchange rate fluctuations due to the nature of its business. This risk occurs due to purchases, sales, demand / time deposits and bank borrowings of the Group, which are denominated in currencies other than the functional currency. The Group manages its foreign currency risk by balancing the amount of foreign currency denominated assets and liabilities.

### 25. NATURE AND LEVEL OF RISKS ARISING FROM FINANCIAL INSTRUMENTS (continued)

#### (d) Credit Risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. Financial instruments that potentially subject the Group to significant concentration of credit risk consist principally of cash and cash equivalents and trade receivables. Maximum credit risk on the Group is limited to the amounts disclosed on the financial statements.

The Group maintains cash and cash equivalents with various financial institutions. It is the Group's policy to limit exposure to any one institution and revalue the credibility of the related financial institutions continuously.

The credit risk associated with trade receivables is partially limited due to a large customer base and due to management's limitation on the extension of credit to customers. The Group generally requires collateral to extend credit to its customers excluding its distributors.

#### (e) Liquidity Risk

Liquidity risk is the risk that an entity will be unable to meet its net funding requirements. The risk is mitigated by matching the cash in and out flow volume supported by committed lending limits from qualified credit institutions, bond issues, cash and short-term deposits.

The maturity breakdown of financial assets and liabilities has been indicated by considering the period from the balance sheet date to maturity date. Those financial assets and liabilities which have no maturities have been classified under "1 to 5 years".

#### (f) Commodity Price Risk

The Company may be affected by the price volatility of certain commodities such as sugar, aluminium and resin. As its operating activities require the ongoing purchase of these commodities, the Company's management has a risk management strategy regarding commodity price risk and its mitigation.

Based on a 12-month anticipated purchase of can, the Company hedges the purchase price using commodity (aluminium) swap contracts and aluminium swap call option (Note 6).

### 26. FINANCIAL INSTRUMENTS

#### Fair Values

Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties, other than in a forced sale or liquidation, and best evidenced by a quoted market price, if one exists.

Foreign currency-denominated financial assets and liabilities are revalued at the exchange rates prevailing at the balance sheet dates.

The following methods and assumptions were used in the estimation of the fair value of the Group's financial instrument:

**Financial Assets** – The fair values of certain financial assets carried at cost, including cash and cash equivalents and held to maturity investments plus the respective accrued interest are considered to approximate their respective carrying values due to their short-term nature and negligible credit losses. The carrying values of trade receivables along with the related allowances for bad debt are estimated to be at their fair values.

**Financial Liabilities** – The fair values of trade payables and other monetary liabilities are estimated to approximate carrying values, due to their short-term nature. The fair values of bank borrowings are considered to approximate their respective carrying values, since the initial rates applied to bank borrowings are updated periodically by the lender to reflect active market price quotations. The carrying values of trade payable are estimated to be their fair values due to their short-term nature.

**Fair value hierarchy table**

The Group classifies the fair value measurement of each class of financial instruments according to the source, using the three-level hierarchy, as follows:

Level 1: Market price valuation techniques for the determined financial instruments traded in markets

Level 2: Other valuation techniques includes direct or indirect observable inputs

Level 3: Valuation techniques does not contain observable market inputs
