Onur Yüksek Teknoloji A.Ş.'s ("OYT" or "the Company") previous Corporate Governance Rating of 8.54 dated September 3rd, 2025, is revised as **8.66**. SAHA's rating methodology is based on the Capital Markets Board's (CMB) "Corporate Governance Principles" released on January of 2014.

Furthermore, SAHA publishes (annually) the World Corporate Governance Index (WCGI) which ranks countries in terms of their level of compliance with corporate governance principles as well as their germane institutions, rules, codes, and regulations together with international standards and indices which evaluate countries in a vast array of areas such as transparency, corruption, ease of doing business, etc. Onur Yüksek Teknoloji A.Ş. ranks in the first group of countries with a score of 80+ out of 100, according to the World Corporate Governance Index (WCGI) published by SAHA in March 2026. Details of SAHA's World Corporate Governance Index (WCGI) accessed at <http://www.saharating.com>.

The main factors for this rating change are given below:

I. Shareholders: The rating is unchanged.

II. Public Disclosure and Transparency: The code of ethics established by the Company has been disclosed to the public on the corporate web site. The Annual Report provides a consolidated breakdown of the compensation and all other benefits provided to members of the Board of Directors and executives with managerial responsibilities along with information regarding the external duties performed by members of the Board of Directors and executives, as well as declarations of independence of the Board members. The Annual Report also includes credit rating results.

III. Stakeholders: The Code of Ethics established by the Company is disclosed to the public on the corporate web site.

IV. Board of Directors: The majority of the members of the Board of Directors are non-executive members. The Annual Report provides a consolidated breakdown of the compensation and all other benefits provided to members of the Board of Directors and executives with managerial responsibilities. The Corporate Governance Committee evaluated nominations for independent Board Members—including those from management and shareholders—by considering whether the nominees met the independence criteria, documented its assessment in a report, and submitted it to the Board of Directors for approval.

Stakeholders	15%	91.74
Board of Directors	35%	82.43

Rating Methodology

SAHA's methodology for rating the degree of compliance with the Principles of Corporate Governance is based upon the CMB's "Corporate Governance Principles" released on January 2014.

The CMB based these principles on the leading work of The World Bank, The Organization of Economic Cooperation and Development (OECD), and the Global Corporate Governance Forum (GCGF) which has been established in cooperation with the representatives of the preceding two organizations and private sector. Experts and representatives from the CMB, Borsa Istanbul and the Turkish Corporate Governance Forum have participated in the committee that was established by the CMB for this purpose. Additionally; many qualified academicians, private sector representatives as well as various professional organizations and NGOs have stated their views and opinions, which were added to the Principles after taking into account country specific issues. Accordingly, these Principles have been established as a product of contributions from all high-level bodies.

Certain applications of the Principles are based on "comply or explain" approach and others are mandatory. However, the explanation concerning the implementation status of the Principles, if not detailed reasoning thereof, conflicts arising from inadequate implementation of these Principles, and explanation on whether there is a plan for change in the Company's governance practices in future should be mentioned in the annual report and disclosed to public.

The Principles consist of four main sections: shareholders, public disclosure and transparency, stakeholders, and the board of directors.

Based on these Principles, the SAHA Corporate Governance Rating methodology features around 330 sub-criteria. During the rating process, each criterion is evaluated on the basis of information provided by the Company officials and disclosed publicly. Some of these criteria can be evaluated by a simple YES/NO answer; others require more detailed analysis and examination.

SAHA assigns ratings between 1 (weakest) and 10 (strongest). In order to obtain a rating of 10, a company should be in full and perfect compliance with the Principles (see Rating Definitions, p.22).

To determine the total rating score for each main section parallel to the CMB's Corporate Governance Principles, SAHA alloOYT the following weights:

Shareholders: **25%**

Public Disclosure and Transparency: **25%**

Stakeholders: **15%**

Board of Directors: **35%**

To determine the final overall rating, SAHA utilizes its proprietary methodology which consists of sub-section weightings and weightings for the criteria there under. A separate rating is assigned to each one of the main sections as well.
