The Group's total number of full time employees as of 30 September 2026 is 9.952 (31 December 2025: 9.260). The address of its principal office is Aeropark Yenişehir Mah. Osmanlı Bulvarı No: 11/A Kurtköy-Pendik İstanbul.

Approval of Financial Statements

The interim condensed consolidated financial statements of the Company and its subsidiaries for the nine month ended 30 September 2026 were authorised for issue in accordance with a resolution of the Board of Directors on 9 November 2026.

NOTE 2 - BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS

2.1 Basis of Presentation

Financial reporting standards

The interim condensed consolidated financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values. The accompanying condensed consolidated financial statements are based on the statutory records, with adjustments and reclassifications for the purpose of fair presentation in accordance with IFRS.

The interim condensed consolidated financial statements have been prepared on a going concern basis, assuming that the Group will continue to utilize its assets effectively and meet its obligations in the normal course of business operations.

Functional and Presentation Currency

Although there is no prominent currency affecting revenue and cost of sales, the Company's functional currency is determined as Euro because; significant portion of scheduled flight revenues, which represents the Company's primary operations, is generated from European flights, Euro represents a significant component of the financial liabilities of the Company and management reports and budget enabling the Company's management to make executive decisions are prepared in Euro. The functional currency of the Company, its subsidiary and associates, other than Hitit Bilgisayar Hizmetleri A.Ş. ("Hitit Bilgisayar"), Pegasus Innovation Lab, Inc. ("PIL") and Pegasus Airlines Ventures LP ("PAV") is Euro. Hitit Bilgisayar's, PIL's and PAV's functional currency is US Dollar.

NOTE 2 - BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (cont'd)

2.1 Basis of Presentation (cont'd)

Functional and Presentation Currency (cont'd)

For the companies in Türkiye that maintain financial records in TL, currency translation from TL to the functional currency Euro is made under the framework described below:

- Monetary assets and liabilities have been converted to the functional currency with the Central Bank of Turkish Republic (CBRT) foreign exchange rate.
- Non-monetary items have been converted into the functional currency at the exchange rates prevailing at the transaction date.
- Profit or loss accounts have been converted into the functional currency using the exchange rates at the transaction date, except for depreciation expenses.
- The capital is followed according to historical costs.

The translation differences resulting from the above mentioned conversions are recognized under financial income / expenses in the statement of profit or loss.

Financial Reporting in Hyperinflationary Economies

In accordance with the POA's announcement dated 23 November 2023, companies applying International Financial Reporting Standards are required to present their financial statements for the annual reporting periods ending on or after 31 December 2023, adjusted for the effects of inflation in accordance with the relevant accounting principles in International Accounting Standard 29 "Financial Reporting in Hyperinflationary Economies" (IAS 29). Since the Company's functional currency is Euro as of the reporting date, there is no need to make any adjustments within the scope of IAS 29 in its financial statements to be prepared in accordance with IFRS. However, the financial statements as of 31 December 2024 are prepared in accordance with the Tax Law and have been subject to inflation correction in accordance with the legislation. As of 31 December 2025 and 30 September 2026, inflation accounting has not been applied.

Comparative Information and Reclassification of Prior Period Financial Statements

Consolidated financial statements of Group are prepared in comparison to prior period in order to identify financial position and performance trends. In order to maintain consistency with current period consolidated financial statements, comparative information is reclassified and material changes are disclosed if necessary. In the current period, the Group has made several reclassifications in the prior period consolidated financial statements in order to maintain consistency with current year consolidated financial statements. There is no effect of these reclassifications in the prior period equity and statement of profit or loss. The nature, amount and reasons for each of the reclassifications are described below:

- In the statement of financial position as of 31 December 2025, the amount of EUR 30.433 presented under long-term other receivables related to maintenance reserve contribution receivables has been reclassified to short-term other receivables related to maintenance reserve contribution receivables.
- In the statement of cash flow as of 30 September 2025, the amount of EUR 34.463 presented under other provisions related with investing or financing activities within cash flows from operating activities has been reclassified to the translation differences effect on cash and equivalents.

NOTE 2 - BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (cont'd)

2.1 Basis of Presentation (cont'd)

NOTE 2 - BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (cont'd)

2.3 New and Amended Turkish Financial Reporting Standards (cont'd)

b) New and revised IFRSs in issue but not yet effective (cont'd)

IFRS 18 *Presentation and Disclosures in Financial Statements*

IFRS 18 includes requirements for all entities applying IFRS for the presentation and disclosure of information in financial statements. This standard is effective from annual reporting periods beginning on or after 1 January 2027.

IFRS 19 *Subsidiaries without Public Accountability: Disclosure*

IFRS 19 specifies the disclosure requirements an eligible subsidiary is permitted to apply instead of the disclosure requirements in other IFRS Accounting Standards. This standard is effective from annual reporting periods beginning on or after 1 January 2027.

Amendments to IFRS 19 *Subsidiaries without Public Accountability: Disclosures*

The amendments cover new or amended IFRS Accounting Standards issued between 28 February 2021 and 1 May 2024 that were not considered when IFRS 19 was first issued. Amendments are effective from annual reporting periods beginning on or after 1 January 2027.

Amendments to IAS 21 Translation to a Hyperinflationary Presentation Currency

The amendments clarify how companies should translate financial statements from a non-hyperinflationary currency into a hyperinflationary one. Amendments are effective from annual reporting periods beginning on or after 1 January 2027.

Amendments to IFRS S2 Greenhouse Gas Emissions Disclosures

The amendments to IFRS S2 aim at supporting entities applying IFRS S2 by reducing the complexity, risk of potential duplication of reporting and related costs of applying specific requirements in IFRS S2. Amendments are effective from annual reporting periods beginning on or after 1 January 2027.

The Group evaluates the effects of these standards, amendments and improvements on the consolidated financial statements.

Amendments to IAS 28 *Amendments to the Fair Value Option for Investments in Associates and Joint Ventures*

The amendments provide clarity about which entities are eligible to measure investments using the fair value option in IAS 28. Annual reporting periods beginning on or after 1 January 2027.

IFRS 20 *Regulatory Assets and Regulatory Liabilities*

IFRS 20 requires an entity that is subject to a regulatory agreement to provide information about its regulatory assets, regulatory liabilities, regulatory income and regulatory expense. Applicable to annual reporting periods beginning on or after 1 January 2029.

2.4 Seasonality on Operations

Due to the seasonality of air passenger transportation, higher revenue and operating profit are expected in the second and third quarters of the year compared to the first and fourth quarters. In addition, driven by the increase in sales during the summer season and the continued expansion of the Company's operations, as of 30 September 2026, trade receivables and flight obligations recognized under deferred revenue have increased compared to the year-end.

2.5 Going Concern

The Group has prepared its financial statements in accordance with the going concern principle.

NOTE 4 - SEGMENT REPORTING

The Group is managed as a single business unit that provides low fares airline-related services, including scheduled services, charter services, ancillary services and other services. The Group's Chief Operating Decision Maker is the Board of Directors. The resource allocation decisions are based on the entire network and the deployment of the entire aircraft fleet. The objective in making resource allocation decisions is to maximise consolidated financial results, rather than results on individual routes within the network. All other assets and liabilities have been allocated to the Group's single reportable segment.

NOTE 11 - PROVISIONS, CONTINGENT ASSETS AND LIABILITIES

Litigation

The Group is involved in lawsuits and claims that have been filed against, the total claims constituted by which, excluding reserved rights for claiming excess amounts, risk of litigation and interest, is EUR 2.574 as of 30 September 2026 (31 December 2025: EUR 2.695). These lawsuits and fines have been evaluated by the Group's management and a litigation provision of EUR 2.307 (31 December 2025: EUR 2.581) has been provided against claims for which management believes it is probable it will be required to make a payment. Disputes arise from guest complaints, claims by former employees of the Group and a limited number of commercial disputes.

Tax Inspection

The Company's VAT transactions regarding loyalty card practices in year 2018 have been examined in 2020. The Company have been notified with a report stating "no subject to be examined have been found" in May 2021. However the report evaluation commission has objected this verdict and EUR 51 (equivalent of TL 1.781) tax assessment has been declared to the Company. Against the assessment, the Company filed a tax lawsuit on September 6, 2021, the petition of the counter party was received on October 25, 2021 and the petition was answered on November 23, 2021. The 7th Tax Court of Istanbul decided to accept our case and reject all assessments on June 29, 2022, and the defendant Revenue Administration objected to the decision in August and submitted the petition of appeal to the Tax Court. The petition of appeal was notified to Company on September 28, 2022 and this petition answered within one month. Following the rejection of the opposite party's appeal, this time an appeal was made, and the defendant's appeal was served in April 2023. This petition was also answered by the Company within the time limit. The appeal made by the defendant against the decision was rejected and the decision became final. In this context, the said case numbered 2021/2167 E. was finalized and closed, and the case was also archived and closed in the Company's internal systems. Therefore, no provision has been recognized in respect of this case. However, the cases numbered 2021/2165, 2021/2166, 2021/2168, 2021/2170, 2021/2171 and 2021/2173, which were consolidated under the closed case numbered 2021/2167 E., continue to appear as open in UYAP and therefore remain in the system records. Nevertheless, the Company has not recognized any provision in the consolidated financial statements in line with the opinions received from its legal and tax advisors regarding the aforementioned lawsuit.

Passenger Service Fee

T&T Havalimanı İşletmeciliği İnşaat Sanayi ve Ticaret Şirketi Limited filed three lawsuits against the Company before North Cyprus Lefkoşa Court of First Instance with claims of EUR 766, EUR 989 and EUR 475, respectively. All three lawsuits have the same subject matter and, under the North Cyprus Airports Services and Charges Law no. 5/2013, the plaintiff, as the operator of the Ercan Airport, claims EUR 15 (full amount) passenger service fee for each Turkish Army Staff member traveling on the Company flights for the period between March 2013 and August 2020. Turkish Army Staff departing from North Cyprus are subject to an exemption from this fee under the law. The plaintiff's argument is based on the assumption that the Company has not carried any Turkish Army Staff members in this period of time. The Court of First Instance merged the first two lawsuits and rendered a judgment against the Company for a total principal payment obligation of EUR 1.679. The third lawsuit is still under review. The Company is of the opinion that it is legally impossible to obtain the requested documents related to the transported passengers from the relevant public authorities, and that the responsibility for implementing the requested additional inspections lies with the operating plaintiff. Furthermore, a provision corresponding to the claimed amount has been recognized for the ongoing third lawsuit due to the judgment against the Company in the first two lawsuits.

NOTE 12 - COMMITMENTS

NOTE 23 - NATURE AND LEVEL OF RISKS DERIVING FROM FINANCIAL INSTRUMENTS

Financial Risk Factors

Market risk

The Group's activities expose financial risks: market risk (including currency risk, fair value interest rate risk, cash flow interest rate risk and price risk), credit risk and liquidity risk. The Group's overall risk management plan focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial performance. The Group uses derivative financial instruments to hedge certain risk exposures.

Foreign currency risk management

The Group has transactions in non-Euro currencies including Turkish Lira revenues, US Dollar borrowings and fuel purchases. These non-Euro denominated transactions expose the Group to foreign currency risk. Exchange rate exposures are managed within approved policy parameters utilising forward foreign exchange contracts.

Foreign currency sensitivity

The Group is exposed to foreign exchange risk arising primarily with respect to the US Dollar and Turkish Lira. The following table details the Group's sensitivity to a 10% increase and decrease in US Dollar, and TL. 10% is the sensitivity rate used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated items and adjusts their translation at the period end for a 10% change in foreign currency rates.

Fair Value of Financial Instruments (cont'd)

The fair values of financial assets and financial liabilities are determined and grouped as follows:

- Level 1: the fair value of financial assets and financial liabilities with standard terms and conditions and traded on active liquid markets are determined with reference to quoted market prices,
- Level 2: the fair value of other financial assets and financial liabilities (excluding derivative instruments) are determined in accordance with generally accepted pricing models based on discounted cash flow analysis using prices from observable current market transactions; and
- Level 3: the fair value of financial assets and liabilities are determined by the input that does not reflect an actual data observed in the market while finding the fair value of an asset or liability.

The Group has forward fuel purchase option contracts, which are subject to hedge accounting, at a rate of 44,6% and 13,4% of the total fuel consumption estimated to occur in a period shorter than 1 year and more than 1 year, respectively. In line with its hedging policy, the Group can conclude contracts with maturities up to 24 months. As of 30 September 2026, the contracts last until August 2028. The total nominal value of these contracts is USD 451,8 million (full amount), and the weighted average price is in the range of USD 62-78 (full amount). The ineffective portion of the hedge is not material as of 30 September 2026. In the current period, the income that is reclassified from hedging gain/(losses) fund under shareholders' equity to fuel expense in the profit or loss statement is amounting to EUR 83.333 (30 September 2025: EUR 1.786 derivative expense are charged to fuel expenses).

NOTE 25 - EVENTS AFTER REPORTING PERIOD

Execution of a Share Purchase Agreement with Prague City Air s.r.o. (Seller) and a Receivables Assignment Agreement with Unimex Group, a.s. (Assignor) for the acquisition of the entire equity stake in Czech companies České aerolinie a.s., Smartwings a.s., and its subsidiaries (together the Smartwings Group) by the Company, through fully-owned subsidiary Pegasus Europe B.V., and for the assignment of the outstanding debts of the target companies to the current shareholders to the Company and Pegasus Europe B.V. was disclosed on 8 December 2025. Following the receipt of the necessary administrative approvals in the Czech Republic, in Türkiye, and other countries where Smartwings Group operates, and the fulfillment of standard share transfer conditions, the acquisition was completed on 1 November 2026.

NOTE 26 – INCOME TAX EXPENSE

The Group is subject to corporate tax applicable in Türkiye. The corporate tax rate in Türkiye is applied as 25% for the 2025 taxation period. It continues to be applied as 25% for the 2026 taxation period. While calculating deferred tax on temporary differences, the Company takes into account the tax rates applicable at the date of closing of the temporary differences.

The tax expense components of 30 September 2026 and 30 September 2025 are presented below:

	1 January-30 September 2026	1 January-30 September 2025
Tax income/(expense)		
- Current tax expense	-	-
- Deferred tax income/(expense)	3.449	(57.775)
Total tax income/(expense)	**3.449**	**(57.775)**

The Group's earnings from investments tied to an incentive certificate are subject to corporate tax at discounted rates, starting from the accounting period in which the investment is partially or fully operational, until the investment contribution amount is reached. In this context, tax advantage amounting to EUR 444.500 (31 December 2025: EUR 401.576) that the Group will benefit from in the foreseeable future as of 30 September 2026 is reflected in the interim condensed consolidated financial statements as a deferred tax asset. As a result of the recognition of the mentioned tax advantage as of 30 September 2026, deferred tax income amounting to EUR 42.924 has recognised in the interim condensed consolidated profit or loss statement for the period 1 January - 30 September 2026.

Deferred tax assets are recognized when it is determined that taxable income is likely to occur in the coming years. In cases where taxable income is likely to occur, deferred tax assets are calculated over deductible temporary differences, tax losses and tax advantages vested in indefinite-lived investment incentives that allow reduced corporate tax payments. In this context, the Group bases the reflection of deferred tax assets arising from investment incentives in the interim condensed consolidated financial statements on long-term plans and evaluates the recoverability of deferred tax assets related to these investment incentives as of each reporting date. This evaluation is conducted based on business models that include estimations of taxable profits.

In the sensitivity analysis carried out as of 30 September 2026, when the inputs in the basic macroeconomic and sectoral assumptions that make up the business plans are increased/decreased by 10%, the duration of the foreseen period for recognizing deferred tax assets related to investment incentives remains unchanged.
