NOTE 1 - GROUP'S ORGANISATION AND NATURE OF OPERATIONS

Petkim Petrokimya Holding A.Ş. ('Petkim' or 'the Company'), was established on 3 April 1965. The Company started its investment activities in İzmit-Yarımca and initially established the Ethylene, Polyethylene, Chlorine Alkali, VCM and PVC plants in 1970 in the Yarımca Complex and in the following years, construction of other plants continued. In 1985, Aliğa Petrochemical Complex was established with advance technology and optimum capacity. The Company has 14 main plants, 1 bag production unit and 1 solid waste incineration facility. The Company operates its facilities in the petrochemical sector in Turkey.

The major operations of the Company and its subsidiaries are as follows:

**NOTE 2 - BASIS OF PRESENTATION OF CONDENSED CONSOLIDATED INTERIM
FINANCIAL STATEMENT**

2.1 Basis of Presentation

The condensed consolidated interim financial statements are prepared in accordance with the Communiqué Serial II, No: 14.1, 'Principals of Financial Reporting in Capital Markets' published in the Official Gazette numbered 28676 on 13 June 2013. According to the article 5 of the Communiqué, condensed consolidated interim financial statements are prepared in accordance with Turkish Accounting Standards/Turkish Financial Reporting Standards ('TAS'/'TFRS') and its addendum and interpretations ('IFRIC') issued by the Public Oversight Accounting and Auditing Standards Authority ('POAASA') Turkish Accounting Standards Board.

The condensed consolidated interim financial statements are presented in accordance with 'Announcement regarding with TAS Taxonomy' which was published on 15 April 2019 by POA and the format and mandatory information recommended by CMB.

The Group prepared its condensed interim consolidated financial statements for the period ended 30 September 2021 in accordance with ('TAS') 34 'Interim Financial Reporting' in the framework of the Communiqué Serial II, No: 14.1, and its related announcement. The condensed interim consolidated financial statements and its accompanying notes are presented in compliance with the format recommended by CMB including its mandatory information.

The Group's condensed consolidated interim financial statements do not include all disclosure and notes that should be included at year end financial statements. Therefore the condensed consolidated interim financial statements should be read in conjunction with the Group's annual consolidated financial statements dated 31 December 2020 and group's public announcements during the financial year.

The Group maintains its accounting records and prepares its statutory financial statements in accordance with the Turkish Commercial Code ('TCC'), tax legislation and the uniform chart of account issued by the Ministry of finance.

The condensed consolidated interim financial statements, except for the financial assets and liabilities measured at their fair values, are maintained under historical cost conversion, with the required adjustment and reclassification reflected for the purpose of fair presentation in accordance with the TFRS.

According to CMB Communiqué No:14.1 and announcements made by the CMB, it is obligatory for the companies preparing condensed financial statements in interim periods to present the foreign exchange position table, the hedging ratio of the total foreign exchange liability and the total export and total import amounts in the footnotes of the financial statements (Note 21).

The Group's financial statements in the condensed consolidated interim financial statements do not have any effect on the seasonality of the Group's operations.

2.2 Summary of Significant Accounting Policies

Significant accounting policies applied in these condensed consolidated interim financial statements are consistent with the accounting policy applied in the consolidated financial statements for the period 1 January - 31 December 2020 except for the followings:

Income tax expense is recognised in each interim period based on the best estimate of the weighted average annual income tax rate expected for the full financial year. Amounts accrued for income tax expense in one interim period may have to be adjusted in a subsequent interim period of that financial year if the estimate of the annual income tax rate changes.

Expenses which are not evenly distributed through the year are recognized in the condensed consolidated interim financial statements only when they can be estimated or deferred appropriately.

2.3 Basis of Consolidation

The condensed consolidated interim financial statements include the accounts of the parent company, Petkim and its subsidiaries on the basis set out in sections below. The financial statements of the companies included in the scope of consolidation have been prepared as of the date of the consolidated financial statements and have been prepared in accordance with TFRS applying uniform accounting policies and presentation.

a) Subsidiaries

All companies that have control over the Group are affiliates of the Group. The Group controls the entity if it is exposed to variable interest due to its relationship with the entity or if it has the right to influence the entity at the same time. Control over the subsidiary the subsidiary is included in the consolidation as of the date of its transition to the Group. Since the control on the subsidiary has ended, the related subsidiary is excluded from the scope of consolidation.

The balance sheets and income statements of the companies included in the consolidation have been consolidated using the full consolidation method and all debit/credit balances and transactions between them have been mutually canceled. The shareholding amounts and the shareholders' equity of the companies participating in are eliminated mutually. The financial statements of the companies included in the scope of consolidation have been prepared as of the date of the consolidated financial statements and have been prepared in accordance with TFRS applying uniform accounting policies and presentation. Gains and losses arising from intra-group transactions recognized in assets are eliminated when the losses are offset against each other and unrealized losses are eliminated when the transaction does not indicate an impairment in the transferred asset.

The non-controlling share in the net assets and results of subsidiaries for the period are classified within the materiality principle of the account in the consolidated statements of balance sheets and retained earnings. The accounting policies of the subsidiaries have been changed where necessary to be consistent with the accounting policies accepted by the Group.

2.3 Basis of Consolidation (Continued)

a) Subsidiaries (Continued)

The table below sets out all subsidiaries included in the scope of consolidation together with the related voting rights and effective ownership rates at 30 September 2021 and 31 December 2020 are;

<u>Subsidiaries</u>	<u>Direct or Indirect Control Shareholding rates of the Group (%)</u>	
	<u>30 September 2021</u>	<u>31 December 2020</u>
Petlim	73.00	73.00
Petkim Specialities Mühendislik Plastikleri Sanayi ve Ticaret A.Ş.	100.00	100.00

b) Foreign currency translation

i) Functional and presentation currency

The financial statements of each company within the Group are measured in the currency in which the entity is located and in which the operations are maintained ('functional currency'). As a result of the Group management's assessment, the functional currency of Petlim has been designated as US Dollars as of 1 January 2017 due to Petlim's commencement of its operations and generating all its revenues in US Dollars. The condensed consolidated interim financial statements have been prepared and presented in Turkish lira ('TRY'), which is the parent Company's functional and presentation currency.

ii) Transactions and balances

Transactions in foreign currencies have been translated into functional currency at the exchange rates prevailing at the date of the transaction. Exchange gains or losses arising from the settlement and translation of monetary assets and liabilities denominated in foreign currency at the exchange rates prevailing at the balance sheet dates are included in consolidated comprehensive income, except for the effective portion of foreign currency hedge of cash flow which are included under shareholders equity.

iii) Translation of financial statements of subsidiaries, whose functional currency is not Turkish liras.

As of 30 September 2021, Petlim's assets and liabilities are translated into TRY from the foreign exchange rate at the date of that balance sheet date. The income and expenses of Petlim are translated into TRY at the average exchange rate. The effects of conversion of opening net assets of Petlim and the differences arising from the exchange rates at the average exchange rates and balance sheet dates are recognized in 'currency translation differences' in other comprehensive income.

2.4 Amendments in Turkish Financial Reporting Standards

a) Standards, amendments and interpretations applicable as at 30 September 2021:

- **Amendment to IFRS 16, 'Leases' – Covid-19 related rent concessions Extension of the Practical expedient;** as of March 2021, this amendment extended till June 2022 and effective from 1 April 2021. As a result of the coronavirus (COVID-19) pandemic, rent concessions have been granted to lessees. Such concessions might take a variety of forms, including payment holidays and deferral of lease payments. On 28 May 2020, the IASB published an amendment to IFRS 16 that provides an optional practical expedient for lessees from assessing whether a rent concession related to COVID-19 is a lease modification. Lessees can elect to account for such rent concessions in the same way as they would if they were not lease modifications. In many cases, this will result in accounting for the concession as variable lease payments in the period(s) in which the event or condition that triggers the reduced payment occurs.
- **Amendments to IFRS 7, IFRS 4 and IFRS 16 Interest Rate Benchmark Reform Phase 2;** effective from annual periods beginning on or after 1 January 2021. The Phase 2 amendments address issues that arise from the implementation of the reforms, including the replacement of one benchmark with an alternative one. The Group's risk, which is directly affected by the interest rate reform, TL equivalent is 2,927,634 for floating rate loans. After Phase-2 published in August 2020, the Group makes the necessary assessments with the relevant financial institutions so that the variability in the cash flows of the debt does not create a cash flow risk due to the changes in the current benchmark interest EURIBOR and USD LIBOR.

These changes do not have any impact on the Group's financial statements.

b) Standards, amendments and interpretations that are issued but not effective as at 30 September 2021:

- **IFRS 17, 'Insurance contracts';** effective from annual periods beginning on or after 1 January 2023. This standard replaces IFRS 4, which currently permits a wide variety of practices in accounting for insurance contracts. IFRS 17 will fundamentally change the accounting by all entities that issue insurance contracts and investment contracts with discretionary participation features.
- **Amendments to IAS 1, Presentation of financial statements' on classification of liabilities;** effective from 1 January 2022. These narrow-scope amendments to IAS 1, 'Presentation of financial statements', clarify that liabilities are classified as either current or non-current, depending on the rights that exist at the end of the reporting period. Classification is unaffected by the expectations of the entity or events after the reporting date (for example, the receipt of a waiver or a breach of covenant). The amendment also clarifies what IAS 1 means when it refers to the 'settlement' of a liability.
- **A number of narrow-scope amendments to IFRS 3, IAS 16, IAS 37 and some annual improvements on IFRS 1, IFRS 9, IAS 41 and IFRS 16;** effective from Annual periods beginning on or after 1 January 2022.

2.4 Amendments in Turkish Financial Reporting Standards (Continued)

**b) Standards, amendments and interpretations that are issued but not effective as at
30 September 2021: (Continued)**

Amendments to IFRS 3, 'Business combinations' update a reference in IFRS 3 to the Conceptual Framework for Financial Reporting without changing the accounting requirements for business combinations.

- o **Amendments to IAS 16**, 'Property, plant and equipment' prohibit a company from deducting from the cost of property, plant and equipment amounts received from selling items produced while the company is preparing the asset for its intended use. Instead, a company will recognise such sales proceeds and related cost in profit or loss.
- o **Amendments to IAS 37**, 'Provisions, contingent liabilities and contingent assets' specify which costs a company includes when assessing whether a contract will be loss-making.

Annual improvements make minor amendments to IFRS 1, 'First-time Adoption of IFRS', IFRS 9, 'Financial instruments', IAS 41, 'Agriculture' and the Illustrative Examples accompanying IFRS 16, 'Leases'.

- **Narrow scope amendments to IAS 1, Practice statement 2 and IAS 8**; effective from annual periods beginning on or after 1 January 2023. The amendments aim to improve accounting policy disclosures and to help users of the financial statements to distinguish between changes in accounting estimates and changes in accounting policies.
- **Amendment to IAS 12 – Deferred tax related to assets and liabilities arising from a single transaction**; from annual periods beginning on or after 1 January 2023. These amendments require companies to recognise deferred tax on transactions that, on initial recognition give rise to equal amounts of taxable and deductible temporary differences.

The Group will assess the effects of the above amendments on its operations and apply them from the effective date. The impact of the above standards and interpretations on the implementation of the above is assessed.

2.5 Comparative Information and Correction of Prior Period Financial Statements

The Group prepared its condensed consolidated interim financial statements on a comparative basis with the preceding financial period, which enables determination of trends in financial position and performance. The Group prepared its balance sheet at 30 September 2021 on a comparative basis with balance sheet at 31 December 2020; and statements of profit or loss comprehensive income, cash flows and changes in equity for the period of 1 January - 30 September 2021 on a comparative basis with financial statements for the period of 1 January - 30 September 2020. For the purpose of convenience with the presentation of current period consolidated financial statements, comparative information is restated when necessary and major changes are disclosed.

2.5 Comparative Information and Correction of Prior Period Financial Statements (Continued)

The effects of the classifications are summarized below:

- Expenses amounting to TL21,438 included in research and development expenses in the profit or loss statement for the accounting period 1 January - 30 September 2020 are classified under cost of sales.

2.6 Significant Accounting Estimates, Judgments and Assumptions

Preparation of condensed consolidated interim financial statements requires the use of estimates and assumptions that may affect the amount of assets and liabilities recognized as of the balance sheet date, disclosures of contingent assets and liabilities and the amount of revenue and expenses reported. Although these estimates and assumptions rely on the Group management's best knowledge about current events and transactions, actual outcomes may differ from those estimates and assumptions. Significant estimates of the Group management are as follows:

a) Provision for lawsuits

Provision for lawsuits is evaluated by the Group based on opinions of Group Legal Counsel and legal consultants. The Group determines the amount of provisions based on best estimates. As of reporting date, provision for lawsuits is stated in Note 20.

b) Useful life of tangible and intangible assets and investment property

The Group determines useful lives of tangible and intangible assets and investment properties in line with opinions of technical experts and recognizes depreciation and amortization expenses during aforementioned useful lives. The Group reviews useful lives of assets subject to aforementioned depreciation in each reporting period and it is estimated that there exist no situation requiring any adjustment in useful lives as of 30 September 2020.

c) Deferred income tax assets

There are many transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business and significant judgment is required in determining the provision for income taxes. The Group recognizes tax liabilities for anticipated tax issues based on estimates of whether additional taxes will be due and recognizes tax assets for the tax losses carried forward and investment incentives to the extent that the realization of the related tax benefit through the future taxable profits is probable (Note 15). Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income tax and deferred tax provisions in the period in which such determination is made.

d) Provision for employee benefits

Actuarial assumptions about discount rates, inflation rates, future salary increases and employee turnover rates are used to calculate Group's provision for employee benefits. Such assumptions used in determination of the provision for defined benefit plans are disclosed in Note 13.

2.6 Significant Accounting Estimates, Judgments and Assumptions (Continued)

**e) Exchange rate valuation of foreign currency denominated advances given to related parties
in accordance with share purchase of Rafineri Holding A.Ş.**

As a result of correspondence between the Group and its main shareholder SOCAR Turkey Enerji A.Ş. (STEAS), a share sale and transfer agreement ("Agreement") has been signed on 9 January 2018 in order to acquire 30% shares of Rafineri Holding A.Ş. (Rafineri Holding) from STEAS with a purchase consideration of USD720 million. The shares of Rafineri Holding, which are subject to the Agreement may be purchased by the Group provided that the conditions specified in the Agreement are realized. As Petkim has a share transfer contract that can be terminated at Petkim's own discretion and finalization of share transfer is subject to Group's operational performance and cash flows, advances paid are classified as prepaid expenses to related parties in the balance sheet as of 30 September 2021 and have been subjected to exchange rate valuation.

f) Fair value of determination of investment properties

As of 30 September 2021, investment properties are carried in the consolidated financial statements at their fair value determined in the valuation studies by an independent professional valuation company licensed by CMB. Fair value changes on investment properties and lands, are recognized under income from investing activities in the statement of comprehensive income.

The details of the methods and assumptions used for valuations of investment property and are as follows.

- Revaluation of investment property was based on the method of reference by considering highest and best use approach.
- In the market reference comparison method, current market information was utilized, taking into consideration the comparable property in the market in recent past in the region, price adjustment was made within the framework of criteria that could affect market conditions, and accordingly an average m² sale value was determined for the lands subject to the valuation. The similar pieces of land found were compared in terms of location, size, settlement status, physical conditions, real estate marketing firms were consulted for up-to-date valuation of the real estate market, also, current information and experience of the professional valuation company was utilized.

2.7 Important Developments Regarding the Current Period

Necessary actions have been taken by the Group management to minimize the possible effects of COVID-19 on the Group's operations and financial position. Due to epidemic of COVID-19, which affected the whole world, the slowdown in economic activities, supply, production and sales has occurred in country and sector where the Company operates and, in the countries, where the sales are made in parallel with the developments in general economic activities. In this process, the necessary actions were taken by the Group to minimize investment expenditures, operational expenses and inventory, also cash management strategy was reconsidered in order to strengthen the Group's liquidity position.

2.7 Important Developments Regarding the Current Period (Continued)

With the reduction of restrictions to prevent the spread of the epidemic, production and sales activities continue uninterrupted as of the date of the balance sheet.

For now, it is not possible to estimate for how long the effect of COVID-19 will carry on in Turkey and also in the world, or how much it may spread. As the severity and duration of the effects become clearer, it will be possible to make a more specific and healthy evaluation for the medium and long term. However, while preparing the interim consolidated financial statements dated 30 September 2021, the possible effects of the COVID-19 outbreak were evaluated, and the estimates and assumptions used in the preparation of the interim condensed consolidated financial statements were reviewed. In this context, the Group evaluated the possible impairment in the values of financial assets, stocks, property, plant and equipment included in the interim financial statements dated 30 September 2021, and no impairment has been identified.

NOTE 3 - SEGMENT REPORTING

Operating segments are identified on the same basis as financial information is reported internally to the Group's chief operating decision maker. The Company Board of Directors has been identified as the Group's chief operating decision maker who is responsible for allocating resources between segments and assessing their performances. The Group management determines operating segments by reference to the reports reviewed by the Board of Directors to make strategic decisions.

The operating segment of the Group are as follows;

- Petrochemical
- Port

The Board of Directors assesses the performance of operating segments with specific criteria and measurement units. This measurement criterion consists of net sales and operating profit. Assets and liabilities of the segment include all assets and liabilities of the Group.

Provision for unused vacation:

Movements of the provision for unused vacation rights are as follows:

	2021	2020
1 January	29,849	19,196
Changes in the period, net	17,741	11,435
30 September	47,590	30,631

Provision for employment termination benefits:

Under Turkish Labour Law, the Group is required to pay termination benefits to each employee who has completed one year of service and whose employment is terminated without due cause, or who is called up for military service, dies or retires after completing 25 years of service (20 years for women).

The amount payable consists of one month's salary limited to a maximum of full TRY8,284.51 for each year of service as of 30 September 2021 (31 December 2020: TRY7,638.96).

The liability is not funded, as there is no funding requirement.

The provision is calculated by estimating the present value of the future probable obligation of the Group arising from the retirement of the employees.

TAS 19 requires actuarial valuation methods to be developed to estimate the enterprises' obligation under defined benefit plans. Accordingly, the following actuarial assumptions were used in the calculation of the total liability:

	30 September 2021	31 December 2020
Net discount rate (%)	4.60	4.60
Probability of retirement (%)	100.00	100.00

The principal assumption is that the maximum liability for each year of service will increase in line with inflation. Thus the discount rate applied represents the expected real rate after adjusting for the anticipated effects of future inflation. As the maximum liability is revised semi-annually, the maximum amount of full TRY 8,284.51 which is effective from 1 July 2021, has been taken into consideration in the calculation of employment termination benefits of the Group (1 January 2020: TRY 7,638.96).

NOTE 13 - EMPLOYEE BENEFITS (Continued)

Provision for seniority incentive bonus:

Seniority incentive bonus is a benefit provided to the personnel to promote their loyalty to the job and workplace.

The bonus amounting to 40 days of gross salary for 5 years seniority, 50 days of gross salary for 10 years seniority, 65 days of gross salary for 15 years seniority, 80 days of gross salary for 20 years seniority, 90 days of gross salary for 25 and 100 days of gross salary for 30, 35 and 40 years seniority is paid to the union personnel with the gross salary of the month when they are reached to the seniority level. In case of termination of employment for any reason that does not prevent gaining severance pay, 20% of seniority incentive which the employee will gain, for each year last first seniority incentive level. In this calculation the periods which are shorter than six months are not considered. Periods which are more than six months are considered as one year.

For the non-union personnel working at the Group, the bonus amounting to 40 days of gross salary for 5 years seniority, 50 days of gross salary for 10 years seniority, 65 days of gross salary for 15 years seniority, 80 days of gross salary for 20 years seniority, 90 days of gross salary for 25 years and 100 days for 30, 35 and 40 years seniority for the seniority levels in which they are entitled as of the aforementioned date and 30 days of gross salary for the following seniority levels that they are going to be entitled is paid with the gross salary of the month when they are reached to the seniority level. In case of termination of employment for any reason that does not prevent gaining severance pay, 20% of seniority incentive which the employee will gain, for each year last first seniority incentive level. In this calculation the periods which are shorter than six months are not considered. Periods which are more than six months are considered as one year.

The seniority incentive bonus provision is calculated by estimating the present value of the future probable obligation arising from the qualification of the employees for the bonus.

TAS 19 requires that actuarial valuation methods to be developed to estimate the employee benefit provisions. The following actuarial assumptions have been used in the calculation of the total provision:

	30 September 2021	31 December 2020
Net discount rate (%)	4.60	4.60
Used rate related to retirement probability (%)	100.00	100.00

NOTE 20 - PROVISIONS, CONTINGENT ASSETS AND LIABILITIES (Continued)

d) Ongoing cases and investigations

The Customs Administration levied an incremental VAT charge and fine to Group in, with the claim that the customs tariff statistical position of Pygas, which was imported by the group in 2014, requires SCT. The Group objected to the VAT charge and fine, then started legal proceedings when its objection was rejected by the Customs Administration.

While these lawsuits were in process, the Turkish Ministry of Finance started a limited tax inspection for the 2014 SCT with the claim that the customs tariff statistical position of Pygas requires SCT. As a result of this inspection, the Group was notified on 25 August 2017 of the imposition of a tax charge amounting TRY66 thousand and penalty of TRY99 thousand. A compromise meeting was attended for the tax and penalties communicated and no compromise was achieved. The case was filed on 22 January 2020 regarding the issue.

Meanwhile, in 2017, two of the three ongoing lawsuits against the additional VAT and Customs Duty Accrual regarding imported Pygas before the Customs Administration were decided in favor of the Group in the local tax courts, that the product did not have a GTIP number with SCT. It was upheld before the District Administrative Court (Court of Appeal). In the third case, it was decided that the product was with SCT, but the penalty was found to be unfair. Then, on 28 September 2017, in the relevant case, it was decided in the Regional Administrative Court ("Court of Appeal") that the product did not have a GTIP number with SCT. The 7th Chamber of the Council of State approved the decisions of the Regional Administrative Courts in 2021 and decided in favor of the Group.

Furthermore, the Turkish Ministry of Finance started a new tax inspection for 2013, 2015 and 2016 regarding our use of Pygas, following the tax loss and late payment interest notification about SCT for 2014. As a result of this inspection, an SCT loss and late payment penalty of 0.75% of the total amount was calculated by the Turkish Ministry of Finance for the relevant years, considering that the Group is entitled to receive a tax refund of 99.25%. This result is different from the result of the inspection conducted in 2014, and the tax principal and tax losses for 2013, 2015 and 2016 were accrued and the Group was informed that the sum of such losses were TRY937 and TRY1,405, respectively. In accordance with 7143 numbered Law regarding reconstruction, a fine amounting TRY479 was levied to the Group. Group has paid TRY479 and these inspections has been closed.

The tax principal and the tax loss calculated for 2013, 2015 and 2016 according to the Turkish Ministry of Finance resulted to be 99.25% less than the tax principal and tax loss calculated according to the previous methodology in 2014. The tax calculation method applied by the Turkish Ministry of Finance for 2013, 2015 and 2016 is considered to be applicable and exemplary to the tax principle and tax loss calculation for 2014, which supports the estimation that the tax principal and tax penalty regarding the Group's SCT for 2014 will be concluded with a reconciliation and/or litigation, without creating a material financial risk.

The Group management and the Group legal consultants estimated that since the Court of Appeals has ruled that the customs tariff statistical position of Pygas does not require SCT, the tax principal and penalty communicated by the Turkish Ministry of Finance will then be concluded with a settlement and/or litigation in a way that does not constitute any material financial risk.

NOTE 20 - PROVISIONS, CONTINGENT ASSETS AND LIABILITIES (Continued)

In support of these predictions, as of 16 December 2020 and 24 December 2020, the ongoing lawsuits regarding the Special Consumption Tax (SCT) of TRY66 thousand and the tax loss penalty of TRY99 thousand in total, which are being heard by the İzmir 3rd and 2nd Tax Courts, are accepted in favor of the Company and the lawsuit is filed. It was decided to abolish the tax assessment.

However, pursuant to the decision taken by the Group Management, the provisions of the "Law No. 7326 on Restructuring of Certain Receivables and Amending Certain Laws" published in the Official Gazette dated 9 June 2021 and numbered 31506 will be utilized and after a payment of TRY 6.7 thousand was made, all of the aforementioned lawsuits were waived. Except for Court Case dated 2nd half of December 2014 of which the Notification of the Court is still not arrived to Company but will be notified soon.

e) Operational leases

As of 31 December 2021 and 31 December 2020, the annual income plans and amounts (undiscounted) regarding rental income, which are not included in the consolidated financial statements of the Group, are as follows:

Total	5,645,456	4,991,849

NOTE 21 - NATURE AND LEVEL OF RISK DERIVING FROM FINANCIAL INSTRUMENTS

Foreign exchange risk

The Group is exposed to currency risk on assets or liabilities denominated in foreign currencies. Management has set up a policy to balance and manage their foreign exchange risk. Existing risks are followed in meetings held by the Group's Audit Committee and Board of Directors and foreign currencies, closely in terms of the Group's foreign exchange position.

Although the raw materials, which comprise the significant portion of production and import volume, are foreign exchange denominated cost items, such exposure is limited with the sales prices impacted by foreign currencies.
