**Report of The
Board of Directors**

30 June 2023

Bağımsız
Denetim ve
Yeminli Mali
Müşavirlik A.Ş.

Independent Auditor's Report on Review of Semi-Annual Report

To the Board of Directors of Aselsan Elektronik Sanayi ve Ticaret Anonim Şirketi

We have been assigned to the review whether the financial information in the semi-annual report of Aselsan Elektronik Sanayi ve Ticaret Anonim Şirketi ("the Company") and its subsidiaries (together "the Group") prepared as at 30 June 2023 is consistent with the reviewed interim condensed consolidated financial information. Management is responsible for the preparation of the semi-annual report. Our responsibility is to express a conclusion on whether the financial information provided in the semi-annual report is consistent with the reviewed interim condensed consolidated financial information on which we have expressed our conclusion dated 15 August 2023.

We conducted our review in accordance with the Standard on Review Engagements ("SRE") 2410 "Review on Interim Financial Information Performed by the Independent Auditor of the Entity". Our review includes the assessment as to whether the financial information included in the semi-annual report is consistent with the reviewed interim condensed consolidated financial statements and other explanatory notes. A review is substantially less in scope than an audit conducted in accordance with Independent Auditing Standards, the objective of which is to express an opinion on the financial statements. Consequently, a review on the semi-annual financial information does not provide assurance that the audit firm will be aware of all significant matters which would have been identified in an audit. Accordingly, we do not express an audit opinion.

Based on our review, nothing has come to our attention that causes us to conclude that the accompanying financial information included in the semi-annual report is not consistent, in all material respects, with the interim condensed consolidated financial information and the information presented in the explanatory notes to interim condensed consolidated financial information.

Yeditepe Bağımsız Denetim ve Yeminli Mali Müşavirlik A.Ş.
(Associate member of PRAXITY AISBL)

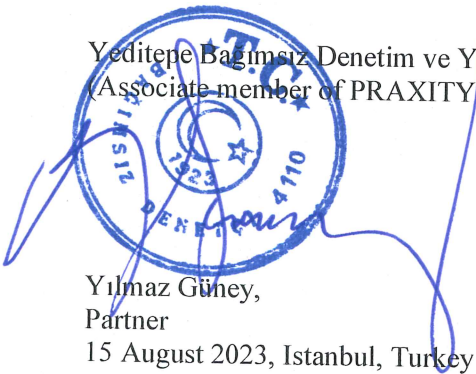

Yılmaz Güney,

18.	Mürsel Ali KAPLAN	Internal Audit President	--	6 March 2023

* It has been resolved by our Board of Directors that; Mehmet ARTAR, Director of Support Services, has been appointed as Vice President of Corporate Management on 18.07.2023 in place of Prof. Dr. Hakan KARATAŞ who was appointed as a Vice President of Defense Industry.

The Members of the Board of Directors are entitled with the authorizations stipulated in the Turkish Code of Commerce (“TCC”) and in article 13 of the Articles of Association of the Company.

Entitled shareholders, members of the board of directors, senior executives and to their spouses as well as relatives up to second degree are not authorized to perform transactions, which may cause conflict of interest or competition with the Company and/or subsidiaries. There is not any ban on trading for board members with the Company, which they performed on their own or on behalf of a third party. There is no operation regarding the non-compete obligation by the members of the board.

The controls are carried out by the Internal Audit Presidency (“IAP”) and Audit Committee within the parent company in order to minimize the substantial error risk on the financial statements of the Group. IAP and Audit Committee carry out their duties independent from each other but within the guidance of common objectives and

targets, with the aim of observing an internal control system, which provides required controls in matters such as the reliability of the financial reporting system, the efficiency of the activities in order to eliminate the operational risks and compliance with the law. Furthermore, the efficiency and sufficiency of the internal control are supported with the directives in effect.

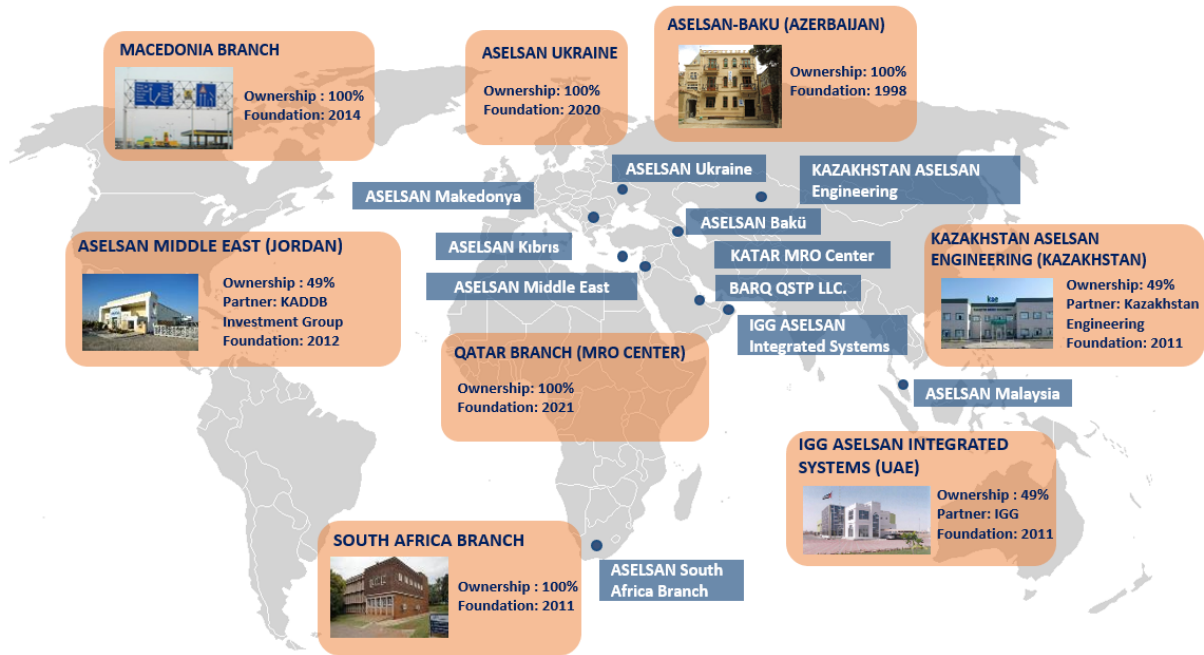

Total Amount of the Financial Benefits Given to Senior Executives:

The total amount of the remuneration and similar benefits paid to the senior executives by the Company as for the period that ended on 30 June 2023 is approximately TL 67.238 Thousand (Of the amount paid, salary and benefit payments comprise the most).

b) Information on Business Partnerships, Associates, Subsidiaries, Joint Ventures and Branches

The Company’s consolidated subsidiaries and branches are as follows:

Both our subsidiaries and joint ventures subject to consolidation fulfill their obligations regarding the tax legislation of the countries in which they operate and submit their audited financial statements and declarations regarding their tax assets/liabilities to the relevant authorities.

There is no cross-ownership relation between the companies subject to full consolidation (ASELSANNET, ASELSAN Bakü, ASELSAN GLOBAL, Mikro Ar-GE, ASELSAN Malezya, ASELSAN Konya, BİTES, ASELSAN Ukrayna and ULAK) and equity pick-up consolidation method (ASELSAN Bilkent, ASELSAN Optik, IGG ASELSAN, ASELSAN Kazakistan, ASELSAN Ürdün, TÜYAR, BARQ QSTP LLC, TEKNOHAB, EHSİM, TR EĞİTİM, DASAL, İFTÜ) and the Company.

5- Main Factors That Affect the Performance, Investment and Dividend Policy of the Company

The Company carries on its business operations mainly in defense industry as well as in non-defense industry. According to the latest data, world defense expenditures has increased by 3,7 % reaching USD 2,2 Trillion and the ratio of total expenditures to total GDPs has realized as 2,2%. The summary table on the right side gives information about the top five countries, which accounted for 63% of the total defense expenditure in 2022 and Türkiye.

Rank	Country	Expenditure (m USD)	2022-2021 %Δ	Expend./GDP %	Share in the World %
	World	2.240	3,7	2,2	100,0
1	USA	877	0,7	3,5	39,0
2	China	292	4,2	1,6	13,0
3	Russia	86	9,2	4,1	3,9
4	India	81	6,0	2,4	3,6
5	Saudi Arabia	75	16,0	7,4	3,3
23	Turkey	11	-26,0	1,2	0,5

As of 2022, Türkiye's annual defense expenditures decreased by 26% to USD 11 Billion and ranks 23th in the world. The ratio of defense spending to GDP is 1,2%.

Due to the industry's nature, defense projects spread over years, furthermore a system project lasts approximately 4 to 5 years from its start to its delivery. As of 30 June 2023, long term plans which have been accordingly signed as contracts spread over years amounts to USD 8,4 Billion.

The determination of target regions/countries and focusing on these markets for marketing and direct sales as well as engaging in joint productions, transfer of technology to/from international platform producers and strategic initiatives for sales to third countries are concurrent to our sustainable growth objectives. Our structure coincides with our objective to operate in non-defense electronic fields which require high technology.

In this context, the Company, which has displayed a remarkable performance in many areas in recent years, from security to transportation, from health to energy, and especially from defense electronics, has added a new activity by entering the field of financial technologies. The entry will be reflected both in the new orders by the Company in the coming period and in the customer portfolio as a variety.

Technological research, development and testing processes of the Central Bank Digital Turkish Lira R&D project will be carried out in close cooperation with the participation of technology stakeholders. In this direction, the Central Bank; signed bilateral memorandums of understanding with ASELSAN, HAVELSAN and TÜBİTAK-BİLGEM and created a "Digital Turkish Lira Cooperation Platform". The Company's profit distribution policy is posted on www.aselsan.com.tr website under Investor Relations/ Corporate Governance/Policies. According to the policy, at least 10% of the net profit is planned to be distributed.

As a result of 48th General assembly meeting held on 26.04.2023, of the net profit generated by our company from its 2022 activities;

- As the General Legal Reserves in accordance with Article 519/(1) of the Turkish Commercial Code, which should be allocated up to 20% of the capital according to legal records, have already been set aside, General Legal Reserves shall not be allocated.
- Out of net distributable profit to the shareholders for the period, calculated in the framework of the dividend distribution regulations and decisions of the Capital Markets Board, gross, TL 400.000.000,- (Kuruş 17,543860 per share of TL 1 and 17,543860% on the basis of the capital) (net TL 360.000.000,- Kuruş 15,789474 per share of TL 1 and 15,789474% on the basis of the capital) shall be distributed in the form of cash and TL 2.280.000.000,- shall be distributed as non paid-up share, which equals to 100% of the capital,
- In accordance with Article 519/(2) of the Turkish Commercial Code, General Legal

Reserves amounting to TL 28.600.000,- is going to be allocated,

- The remaining profit is going to be allocated as Extraordinary Legal Reserves, and distribution of the cash dividend to the shareholders are planned to be distributed as of November 22, 2023 and the non paid-up share is to be distributed following the completion of the legal process.

6- Enterprise Risk Management

ASELSAN's Enterprise Risk Management Policy aims; to take proper actions against uncertainties that threaten the existence of the Company and to protect corporate identity and stakeholders' interest at all conditions. Risk management is an integrated element of Corporate Management. The information gathered within the scope of risk management activities in ASELSAN is integrated into decision making mechanisms.

The "top-down" and "bottom-up" approach is being applied into Enterprise Risk Management activities together. Risks, which are significant enough to affect ASELSAN's achievement of its targets, are identified, evaluated, monitored and reported along with the risk responses and precautions to be taken. At ASELSAN; The Enterprise Risk Management process is regularly reviewed and improved. ASELSAN's employees and business processes are at the center of the Enterprise Risk Management System. In the developing and rapidly changing world, every risk that arises or increases in impact and probability is proactively followed, and the possible effects on the Company and the opportunities created by these risks are evaluated.

At ASELSAN, risks are followed under four main categories:

a) Main Risk Categories

Strategic Risks: Risks that may prevent ASELSAN from reaching its targets in short, medium or long terms are classified under this heading. Risks under this heading include factors such as; growth and continuity, changing customer

expectations, technological changes and market share.

While ASELSAN manages its strategic risks effectively; it aims to increase its backlog, increase exports and to take part in sustainable works. In order to increase ASELSAN's market share and offer new products / services, ASELSAN seizes company merger / acquisition opportunities both at home and abroad. ASELSAN also conducts business development activities successfully.

ASELSAN increases its research and development activities in order to meet changing customer expectations and changes in technology, and realizes the necessary infrastructure and technological investments. ASELSAN diversifies the geographical regions in sales, customer portfolio and the sectors in order to maintain its growth and continuity in the medium and long term.

Operational Risks: It is defined as the risks arising from errors and negligence that may occur while performing the operational activities of the company. Risks under this section include factors such as; production, supply chain, human resources, information technologies, natural disaster and terrorist attacks.

In order to ensure the continuity of the processes, in-house directives and functors have been prepared and necessary updates are being made when needed. Within the scope of the Internal Audit plan and work schedule prepared in ASELSAN, business processes are being audited and process improvements are made in line with the audit outputs.

Quality in production processes involving internal operations and suppliers is uncompromisable; where subcontractor and supplier development activities are carried without slowing down. In terms of managing Human Resources and increasing employee motivation; activities were made with the participation of employees from every level and process improvements were made. Security policies are sustained at the highest level in Information Technology applications. In this area, internal and external audits are carried

out periodically and precautions are taken against probable cyber-attacks and in the field of Information Technologies, business continuity in-house is provided.

Our all processes are administered by directives, quality plans, standards, audits and test instructions. Our processes have been certified by internationally accepted standards such as AS9100, ISO 9001, AQAP and CMMI so that our products and services are secured to protect quality standards. These certificates are renewed every year with the audits performed. Changes and improvements of international standards are being followed and our processes are developed accordingly.

Regarding risks, such as natural disasters, terrorist attacks, necessary precautions are taken, primarily insurances have been made, and drills are carried out.

Financial Risks: It refers to the risks arising from the financial structure and financial preferences of the company. Exchange rate, liquidity and interest rate risks are some risks under this heading.

The exchange rate risk, which is any kind of change that may occur in assets and / or liabilities as a result of exchange rate fluctuations in the future, ASELSAN aims to minimize the effect of exchange rate fluctuations by keeping the long and short foreign exchange position at a minimum level. The balance sheet methods have been used in managing the exchange rate risk. Implementations such as; making use of foreign exchange denominated loans in line with the company's export volume, matching the contract currency with the currency of the costs of the project, and signing the subcontractor contracts in line with the main contract currency are used.

ASELSAN eliminates the liquidity risk, which is known as the risk arising from default and inability to fund the assets, it monitors forecasted and actual cash flows regularly and ensures the continuity of adequate funds and credit lines by matching the maturity of financial assets and liabilities. In order to manage the interest rate risk arising from

changes in assets and / or liabilities as a result of fluctuations in interest rates in the future, it conducts transactions with fixed interest rates and uses financial derivative instruments when necessary.

Compliance Risks: It refers to the risks associated with the Company's financial losses and / or loss of reputation as a result of the company's activities or the attitudes and behaviors of the company employees that are not in compliance with the legislation, regulations and standards. While conducting its activities, ASELSAN closely follows national and international standards with the best practices in the sector, and compliance with legislation and regulations is ensured at the highest level. In addition, by Internal Audit Presidency; the effectiveness of controls, compliance with legislation and ASELSAN regulations, compliance with ethical principles and controls to eliminate risks are being evaluated.

b) Early Detection and Management of Risk Committee Works

The Early Detection and Management of Risk Committee, which consists of the members of the Board of Directors, has been operating at ASELSAN since 2012 in order to ensure early detection of risks that may endanger the existence, development and continuity of the Company, to take necessary measures related to the identified risks and to manage the risks. The Chairman of the Committee is an Independent Board Member.

Committee; carries out its own activities in full compliance with the regulations of the Capital Markets Board and all the related legislation, especially article 378 of the Turkish Commercial Code No. 6102. In addition, the Early Detection of Risk System and Committee, established by ASELSAN, is subjected to independent audits annually and the Auditor Report stating that the activities performed is sufficient, is submitted to the Board of Directors. Committee conducted 3 meetings in the first half of 2023 in order to follow the works on early detection and management of risks and to make evaluations about this issue. The reports containing the works of the Committee were being submitted to the Board of Directors periodically.

c) Training

At ASELSAN, spreading risk management to the Company culture and creating risk awareness in each employee are among the basic elements that ensure the success of the Corporate Risk Management System. In this context, "Corporate Risk Awareness Training" and "Climate Change Risk and Opportunity Studies at ASELSAN" have been added to the vocational and on-the-job training programs of all ASELSAN personnel. It has become compulsory to take these trainings.

CLIMATE CHANGE

ASELSAN has been working as the climate leader within the scope of Carbon Disclosure Project (CDP) Climate Change since 2010. It continues to work as a climate leader in every field by getting the A- grade in CDP Water Reporting.

According to the Global Risks Report 2022 published by the World Economic Forum, climate change risks are the most important risks evaluated according to their probability and impact level in 2023, as in 2022.

ASELSAN continues to take the necessary actions for the management of climate change risks and a sustainable world, especially CDP Climate Change reporting, and maintains its place among the world's important defense industry leaders in this regard. In this context, it has made climate change and environmental risks, which are among the most important risks of our age, a part of the corporate risk system.

Türkiye's Sustainable Power

7- Financial Information of the Company

The forecasts under the normal conditions regarding the Group's consolidated financial results for the 2023 year are presented below:

Financial Targets of 2023	Amount Ratio
Revenue Growth (TL)	>%65
EBITDA Margin (Adjusted without Foreign Exchange Rate Differences)	>%24
Capital Expenditures	10.000 Million TL

The Company, which has been in the most prestigious Defense Industry list since 2008, "Defense News Top 100", published by "Defense News" magazine, aims to increase its ranking in the list in following years. Ranking 49th in the 2022 list and ranking 47th place in the 2023 list.

48th Ordinary General Assembly Meeting held on 26 April 2023.

In order to achieve the sustainable growth:

- The quality and technological perspectives of the cooperation formed with the universities have been increased.
- ASELSAN employees are provided with the opportunity to study in the work environment with the initiation of ASELSAN Academy Postgraduate Training Program. The program serves the purpose of having the necessary technologies and developing existing technologies.
- The eco-system with the sub-industry companies and SME's is formed.
- Company is continuing its operations in non-defense electronic areas which requires high technology.
- Inorganic growth will be also evaluated as well as organic growth.

a) Financial Resources of the Company

The most substantial financial resources of the Company comprise the advance and interim payments taken within the scope of the contracts signed and profits generated by the main activities.

During the period between 1 January - 30 June 2023, the cash requirements were met with the available cash, cash inflows from operations and loans.

As of 30 June 2023, there is a loan balance amounting to USD 586 Million.

Planned Measures to Improve the Financial Structure of the Company

As for the annual budgets and implementations for the period 2022-2024, the Group have adopted the principles as the basis to take care of savings in all kinds of expenditures, to follow up the advances and receivables closely, to pay attention to the proportion of the term and currency in purchasing and sales agreements and the risk status of the domestic/foreign suppliers and sub-contractors.

b) Research and Development Activities

The Group, as a leading defense industry establishment, develops advanced technology system solutions on land, air, naval and aerospace platforms, places great importance to Research and Development activities and technological gains since it was founded.

By following up on all kinds of technological developments pertaining to land, air, naval and aerospace platform product/system technologies, the Company not only applies technology but also designs, develops and produces product/system technologies in order to share or sell with/to national and international collaborations.

Projects are striving at maximum level in order to benefit from the technological opportunities existing in the country aiming to increase the national contribution share. For this purpose, cooperation is made with universities and various R&D organizations and importance is given to the use of local suppliers and subcontractors.

As for the projects carried out within the Group, Research and Development center application pursuant to the Law regarding the support of Research and Development activities numbered 5746 is being implemented. As for non-public R&D projects, the approval of TEYDEB

(Technology and Innovation Support Programs Directorate) and ARDEB (Research Support Programs Presidency) are received and supported by the institutions.

Within the Company, there are 9 Research and Development centers within the scope of Defense System Technologies (SST-1 and SST-2), Radar Electronic Warfare and Intelligence Systems (REHİS), Microelectronics, Guidance and Electro-optics (MGEO-1 and MGEO-2), Communication and Information Technologies (HBT), Transportation, Security, Energy, Automation and Medical Systems (UGES) Vice Presidencies as well as ASELSAN Research Center of Vice Presidency of Technology (ARME-1 and ARME-2). Currently, 6.214 staff are employed at the Group's Research and Development centers.

The Company also carries on its activities at METU Teknokent, Hacettepe Teknokent, Teknopark Ankara and Teknopark İstanbul within the scope of the Law numbered 4691 on Technology Development Regions. 370 staff at METU Teknokent, 61 staff at Teknopark İstanbul, 3 staff at Teknopark Hacettepe, 16 staff at Gebze IT Valley and 15 staff at Teknopark İvedik are employed.

c) Progress in Investments and Degree of Incentive Utilization

I. Investments

Directing the Company's resources to profitable, high value-added fields, where advanced technology is used, is anticipated in the first place by considering the global tendencies, technological developments and the actual and prospective requirements of all customers, particularly Turkish Armed Forces. The investments within the Company are carried out after detailed consideration of the technological plans, strategic plans and project requirements.

During the current period, the investments, which will meet the needs of substructure and equipment in order to be used in research and development project have been sustained in compliance with the investment scheme in accordance with the policy of efficient use of resource.

II. Incentives

Income tax withholding incentive, insurance premium support, stamp tax exemption and Research and Development incentives are utilized within the scope of the Law numbered 5746. In accordance to the Law regarding the Incentive of Research and Development Activities numbered 6676 published on Legal Gazette numbered 29636 on 26 February 2016 and The Law Regarding the Amendments on Delegated Legislation, the content of the law and incentives has been broadened and additional exceptions has been given. Income tax withholding incentive, insurance premium support and stamp tax exemption are utilized by being calculated over the salaries of the Research and Development personnel and not being paid to the relevant institution and the Research and Development discount is utilized by means of applying a discount on the corporate tax return. Aforesaid law is valid until the date of 31 December 2028.

Within the scope of the Teknokent Law numbered 4691, incentive on withholding income tax, insurance premium support and stamp tax exemption are applied. These are utilized by making calculations on Research and Development and software personnel wages and not being paid to the related institution. The gain obtained with reference to the execution of Technology Development Zones Law numbered 4691 is exempted from the corporate tax of 31 December 2028.
